Q1

✓ Solid beech wood (1pt)

What kind of solid wood is used to many the Himolla product

1/1 pt

Q2

✓ Tongue & groove, doweled, glued and stapled (1pt)

Himolla's solid frame is comprised of the following components?

1/1 pt

Q3

✓ Pouring two different liquid chemicals within a mold at room temperature. A chemical reaction starts and mixture expands releasing CO2 that causes the bubbles in the foam. (1pt)

How is Cold Cured Moulded Foam Made?

1/1 pt

Q4

Where can you find Cold Cured Moulded Foam. Check the four that apply.

1/1 pt

- ✓ True (1pt)

Q6

Where does Himolla source their Leather hides?

1/1 pt

- ✓ Brazil & Europe (1pt)

Q7

What is the difference between Longline & Non-Longlife Leathers?

1/1 pt

- ✓ Longlife Leathers: Comes with a 5 year warranty against Peeling, Breaking/Cracking, & Excess Fading. Comes with Longlife leather care Cleaning & Conditioning kit. Non-Longlife Leathers: Comes with a 2 year warranty against Peeling, Breaking/Cracking, & Excess Fading. Does not come with Cleaning & Conditioning kit, but is available for purchase through Euro Link (1pt)

Q8

Himolla's cleaning and conditional kit provided by Uniter, should be used on your LongLife leather a minimum of 2-times per year.

1/1 pt

- ✓ True (1pt)

Q9

Even though ALL Himolla's Leathers are top grain and of the highest quality, why are there price differences in the Himolla grades of Leather

1/1 pt

- ✓ The lower the grade of leather, the MORE corrections were made to the hide in order make the hide perfect. The higher the grade of Leather, the LESS corrections were made, which in turn means its a near perfect hide. This is due to supply and demand for higher grade leathers because there are fewer leathers that are perfect and will need little to no corrections. (1pt)

Q10

Himolla's Ultra Performance Q2 fabrics made by Rohleder can be cleaned with the following?

1/1 pt

- ✓ Soap & Water, Bleach (diluted 1:10), Acetone (1pt)
