Yes No Don't Know

Q10. Comments

"Very good doctor and supportive colleague"

"He is one of the best doctors I have ever worked with . Brilliant throughout."

"An exceptional hard working Dr who is a pleasure to work with, He has a keen action to details, combine with an empathetic nature whilst attending to patients needs, He would be an asset to any organisation he works for"

"Competent, safe and has empathy."

"Dr KV is very competent doctor, thorough in his examination and investigation. He has good communication skill and bedside manner. He is good team player and great to work with. "

"Very knowledgeable, his door is always open to myself and to staff."

"Excellent colleague globally"

"Dedicated and hard working. "

"Dear Sir This is to confirm that I have known my colleague Dr konstantinos vranakis for few years Since that time it has been privilege to work with Dr konstantinos vranakis as he has always been caring, professional, courteous, and polite and works well as a team member I have never seen Dr konstantinos vranakis angry, upset or disrespectful to any members of staff or patients , His work is of a very high standard and as such he is highly respected among his peers As such he is valued member of the health team and valued asset to any health organisation I am happy to furnish you with further information if needed Yours sincerely Emergency Nurse Practitioner (ENP) Majdi Allahham "

"HE IS A GOOD PERSON AND EXCELLENT DOCTOR"

Q12. Comments

"He made me feel that my health and well-being mattered and that is not always the case with other doctors at the practice!"

"When I book an appt I always ask for an appointment with Dr Vranakis, he is very caring and a excellent GP."

"Dr Kosta treated me for 20 years now I have shifted house to Barnet and is with another health service"

"Dr Branakis is the best doctor i have ever used!"

"I am extremely happy to be a patient of Dr kostas. He never fails to want to help and understand my medical problems. He is always willing to go above and beyond and makes time to see me even at short notice or over the phone. His professionalism is to a very high standard and I'm always treated with respect. I'm very satisfied with my GP. "

"Competent, efficient polite and updated knowledge "

"Amazing caring doctor!"

"Dr Kosta is an amazing DR. He always listens and provides the best care possible. He has been very supportive in my recent diagnosis. This included both physical and mental health support. Dr Kosta has built a good rapport with myself and my family members who he treats. "

"I've been seeing that doctor for the past 23 years and he was always nice and kind. In my opinion he is the best Doctor at Bayswater Medical Center. "

"Within an hour I was at St Mary's Hospital for treatment. You cannot get any better than that. On another occasion and for a different reason the doctor telephoned me at 0800 to remind me to go to St Mary's - pretty good care."

"I have been fortunate to be under the care of Dr Vranakis for the last twelve years. He has been very kind , understanding and meticulous in all aspects of the care he provide. He takes special care to see on follow up that all is well , prescribed treatment is effective in controlling ailments or disease process and that needed investigation are being regularly performed. I am very happy to be under his good care. "

"The surgery is always very busy, but the staff are always polite and helpful."

"According to me, my family and some friends that visit Bayswater Medical Centre, Dr Vranakis is the best doctor over there. I have been visiting the surgery for over 23 years now. Dr Vranakis is a very professional doctor but most importantly makes the patient feel good about himself or herself which is the first thing that the patient needs. He is very thorough at his investigations and follows up with patients regularly and have a great rapport with me and I can easily say the same for my family and friends who goes to the surgery. His diagnosis to problems of patients health almost all of the time is correct and spot on. He definitely goes the extra mile with his patients according to me, my family and friends. I was very sad the other day when I visited the surgery to get a prescription is to hear that he now works only 4 hours a day. I really don't want to see him retiring or going away from this surgery as I am sure I will leave this auregery and so do my family and many other patients that visits the surgery. The administration of the surgery is not perfect but most importantly Teh doctor I meet is a great one as all surgeries have cons and shortfalls in administrations. "

"The doctor has very solid experience and knowledge. He is warm and makes you feel comfortable to discuss difficult matters with confidence and reassurance. The doctor is very nice and understanding towards his patients."

"this doctor listens to everything first and then discuss the appropriate course i feel the my healyis in good hands "

"Dr. Vranakis is a very nice, helpful, knowledgeable, Capable Doctor. I have been his Patient ever since he took over this Practice from Dr. D. Silva. I have been a Patient along with my family of this Practice since 1979. He receives me with courtesy and charm every time I go to see him."

"Dr Vranakis is an excellent medical doctor and a very warm and polite human being. He is always listening to you and your medical issues and is full of compassion .He got a positive approach to the issues and he never lets you down .Even when things doesn't go so well,he shows you the good aspects of the situation and he is encouranging you non stop.Sometimes, he might be strict with you,in terms of some bad health habbits or non taking properly the prescribed medication,but even this is done with a heart full of love . Never to put you down or to insult you. During these years that he is my GP ,I have experienced 4-5 quite difficult and complicated medical conditions.He guide me always safely and smoothly to the best outcome.Just one example: I owe to Dr Vranakis the proper functioning of my legs today. Few years ago ,I went to the Surgery complaining about severe pain on both of my legs.He examined me very carefully .Then , he provide me with some good medication which ease my pain.However the pain was persistent,i couldn't even sleep in the nights.I booked another appointment with Dr. Vranakis.After some good examination he send me for scans and MRI's,suspecting insufficiency with my veins. As usually ,when the results came ,he was once again right. He referred me then ,to a very good vascular specialist. As Dr Vranakis already told me ,I might need operations,the Vascular specialist proved Dr.Vranakis absolutely accurate on his diagnosis.Dr Vranakis gave me medication and advised me to go forward with the operations and to wear stockings.Unfortunately I didn't listen to him this time and as a result ,I end up with thrombosis in my veins.He show me as an urgent case and send me to the nearby hospital immediately .Then he changed my medication to a stronger one and send me to another specialist ,which again agreed absolutely with Dr.Vranakis treatment.Finally, Dr Vranakis's polite persistence during all thi speriod,convinced me and I decided to go forward with the operations. I did three operations on my legs.Today ,I am grateful to Dr Vrankakis that I can walk free of pain and with no fear of worst complications. All these years,since Dr Vranakis is my GP, I have visited different specialists or hospitals because of my health issues. I have always heard from the other practitioners ,the same thing: that my GP does an excellent job. P.S : Please feel free to contact me,for further details or even Specialists names related and involved in my case."

"This Doctor is utterly dedicated to the patients of all ages, genders, races and abilities. He runs a highly ethical, highly professional practice which is held in the highest regard and respect within the community it serves."

"My Doctor is absolutely spot on every time with any of my problems or my families i would recommend him to ANYONE & EVERYONE!"

"Dr Konstantinos Vranakis is a wise doctor, and he has always helped other members of my family and friends and me to have better health. We love his way of approaching any of our problems. He is always polite and gentle. I hope that other doctors in the UK will follow his steps. If the NHS could have more doctors like Dr Vranakis, it would be the best Health System in the whole world. But it is challenging to find even a second doctor with his quality. I thank him personally for saving my life twice. "

"Keen on helping his patients "

"My wife and I have been with this surgery for nearly a decade. We have been well cared for and hope our relationship with the surgery continues for years to come. Thank You, Bayswater Medical Centre"

"I have been a patient of this doctor for almost 40 years. He has treated me professionally & effectively through many, many illnesses. I am happy & grateful to be one of his content, healthy patients "

"I am very happy with Dr K. Vranakis, because he always answers my calls and he reply promptly without delay, if he is busy with other patients. He did arrange an appointment with the nurse for wife's Blood Test immediately and when the results came up, he informed me and also, he prepared the prescription to go and collect the medicine from the pharmacy without wasting my time and in a very professional way with care and well organised. He provided an outstanding service. Thank you Athanasios Mitrousis/Jurgita Lupeikyte"

"He is always kind and patient !!!!!!"

"Dr Vranakis saved me from much worst complications ,really serious ones ,life threatening even. It came as a blessing, actually , that I had to move house and therefore, I changed my GP. More than a year ago ,I have starting feeling terrible pain on my left leg.It was such the pain that I end up several times at A&E at St Thomas , St Mary's etc.I did scans and X rays,but nobody could find the cause of my pain.My GP Dr Gray, referred me to a specialist ,a rheumatologist. Another GP from the same surgery , Dr Abdulla prescribed me some very strong medication and she told me that unfortunately she fears the worst outcome.The rheumatologist did dozens of tests and blood tests and exams to me.They add more pain to my situation,actaully.Then she told me that I need to do a biopsy.As you understand I start loosing my calm ,I stopped working and I became very depressed .At this period I changed residence and I felt that with so much medication and mobility problems, I need to change my GP, too.It was one of the best decisions in my life.Dr Vranakis ,reduced my strong medication and gave me something lighter.He send me for MRG ,MRI and referred me to excellent ,high top specialists . Last week I found from the Orthopedic specialist, that there is indeed a lipoma but nothing serious to worry.All this last year through such difficult times ,Dr Vranakis supported me in the best way with his calm manners and his superior medical knowledge."
