There is no denying that McDonald's operations guide is an example of how to create a franchise dynasty that can dominate the industry. When it comes to, there can be no other interventional franchise empire that has achieved such a high level of efficiency and find ways to make operations from Boston to Hong Kong work like a well-made machine. The image of a company that customers like is the happiest place where they get the food they like is the one created from McDonalds operations guide on up. This image doesn't just fall from the sky. This comes from the discipline of all levels of the operation. It takes a careful combination of discipline and gentle loving care from the franchised parent ship company to keep thousands of McDonald's restaurants in line, but happy and work hard at the same time. This discipline is laid down in the McDonalds operations manual, so franchise owners know well how to create an army of hardworking who are also happy workers. It's no secret that people working at McDonalds make low wages, and that there is a high turnover because of this. McDonalds Operations executives are setting out a scheme to keep those low-paying positions filled by good people who serve customers in a way that returns them to more McDonald's food over and over and over again. Its all about giving customers the consistency of the fact of life that most people take just as they recognize that the sun rises and mosquito bites in the summer is that when you go to McDonald's, it will always be the same experience. It's also a corporate ethic that McDonald's made a cornerstone of its operations when they set out. This sequence is that the McDonalds Operations Guide provided right down to the color of the bathroom fabric and the type of light bulbs put in. There are adjustments made to the culture in their international stores, but McDonald's operations management puts a huge priority on making sure that when customers come to McDonald's, they get exactly what they expect in terms of good food, clean environment and useful employees. This sequence is a huge reason why McDonald's operations management has caused such success for the chain.
