Includes: This War of Mine – full version of the base game Our mission in this game is to change the course of history. We have no weapons, no strategy, just civilians. We are the Resistance, an underground network, and we have one simple goal: stay alive. The year is 1943, during the Second World War. Civilians are trapped in the city. People are starving and dying. The Nazis are everywhere and are all around us. We are tired, but we must stay strong. Your objective is to create a safe area in which the civilians can live, as long as possible. You cannot use force, so you must survive on the civilians' trust. When you start the game, you have a shelter and some supplies. The shelter provides a place to hide and survive. You cannot leave the shelter, except when you go outside for food, medicine, and firewood. The shelter keeps you safe from the Nazis, but you are still at risk. You must collect food, water, and coal. You will need to think carefully about every single step, because these resources are scarce. The lack of these resources will slow down your progress in the game. You will need to trade and bargain with the civilians. Do not get emotionally attached to them; you can't protect them from the Nazis, and you don't want to do anything that would hurt them. The civilians will help you, but they have their limits. To get more resources, you need to scavenge. You need to use your wits to get the best possible items. If you search a corpse, you might get a piece of fabric or a radio, but you might also get caught. You may be robbed of resources by the civilians, but you cannot do anything to defend yourself. If you are caught, they will get angry with you and you will have to start over. You must protect yourself and the civilians at all times. One wrong move will cost you everything. You may have to die to keep the civilians safe, but you cannot do anything to protect them. The Nazis are all around us, and they want to kill you. The longer you survive, the more likely you are to escape. There are many challenges in the game. You are not a monster and you don't want to hurt the civilians. You need to protect them, but you cannot get close to them. The 520fdb1ae7
