

# Are These Problems Also Bothering You?

Common issues furniture factories often face when trying lighting:

- ✗ Cabinet lights are too dim inside – only bright near door
- ✗ Customers keep asking: “Can it turn on automatically when I open the door?”
- ✗ Too many wires, installation takes too long – your workers don’t want to deal with it
- ✗ LED strips flicker or fail after installation – customer complaints

**We get it. That’s exactly why we created our ready-to-use kits.**

Everything pre-matched, pre-tested, and easy to install:

✓ **COB LED Strip**  
(uniform light, high brightness)

✓ **Aluminum Profile**  
(slim & hidden design)

✓ **Power Supply**  
(safe and stable)

✓ **Sensor**  
(handwave / door control)

✓ **Accessories** (end caps, connectors, screws)

🔌 Designed for wardrobes, cabinets, drawers, and kitchen furniture

🕒 Installation in 5 minutes – No electrician needed
