It can also , and . The code and documentation for can be found at [is a long-running project at the University of Wisconsin–Madison that started in 1989 and continues to this day. The documentation for can be found at [The SES project was the top-ranked modeling project in the second annual [Software Excellence Challenge of 2013. SES has been, and continues to be, used for studies of hurricanes, e.g., [References External links EES Home page EES Home page for downloads EES Home page for documentation Category:Finite element software for Linux[Comparative analysis of the efficacy of treatment of peptic ulcer in males and females]. A comparative analysis of the efficacy of clinical and endoscopic treatment of peptic ulcer in males and females has been carried out. A study was made of the course and outcome of the course of peptic ulcer, the efficacy of medication in 100 male and 100 female patients in the course of surgical and endoscopic treatment. The data obtained were compared with regard to sex, age, the disease course and results of examination and treatment. It has been shown that the endoscopic treatment of peptic ulcer in females is accompanied by more frequent relapses in comparison with males.Visually Impaired Young Adults with Stroke: A Quality-of-Life Study. Purpose: To estimate the prevalence of visual impairment and associated factors in visually impaired young adults with stroke and to examine the relationship of visual impairment with the health-related quality of life (HRQOL) of visually impaired young adults with stroke. Methods: We recruited young adults (18 to 45 years old) with stroke and their caregivers in a convenience sample of outpatient rehabilitation centers in Taiwan 520fdb1ae7
