

September 23, 2021

Hello!

I am excited to announce that we are supporting Twin Cities Habitat for Humanity's Women Build program again this fall! As those of you who have volunteered in the past know, this is a great opportunity to support the work of empowering women AND creating affordable housing. We know now, more than ever, the Twin Cities needs us to rally around affordable housing so let's get to work!

We have selected the date Thursday, October 14th as our build day and are looking for your help make this event possible. I have attached a sponsorship form whereby you can co-sponsor the build day, or provide lunch because food is also important. **12 volunteers** is the maximum number allowed due to safety, supervision, and workflow issues on site so please let me know as soon as possible if you are interested. You can also go to <https://www.nawicmsp.org/store> and register online.

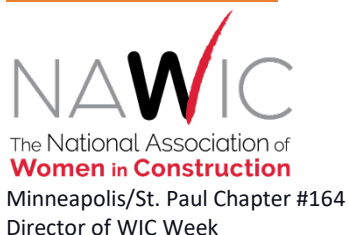

NO previous build or construction experience is required. Women Build events are an opportunity for women to collaborate and connect with other women and help build the lasting promise of home ownership. These events are all about teaching new skills and giving women an opportunity to learn and contribute. The amazing Habitat staff will show us everything we need to know and guide us onsite.

Volunteer spots are limited still due to restrictions so please let me know as soon as possible if you are interested. Volunteer only registration is available, and spots will be filled on a first come basis. If you reserve a spot and are unable to attend, please let me know as soon as possible. If there are no volunteers on the wait list, you will be responsible to find another who can fulfill your obligation. All Volunteers must register on the Habitat Volunteer site, information to follow once interest is confirmed and you will be required to follow the COVID 19 guidelines as provided on the site.

Finally, women will experience firsthand the energy that happens when women passionate about the industry and supporting each other come together to build something extraordinary. Thank you for considering supporting our Women Build Day and for your continued support of Women in the industry. We look forward to you being a part of building a stronger future.

Thank you,
