This device may or may not come with the original packaging, but includes all the necessary accessories and instructions. I bought it from them a couple of times. The markings that you are likely to find on very good condition products will show the typical wear patterns of your age. A few threads here on the subject as well. If you don't see your post, it's probably because your account has low karma and AutoModerator deleted it. Rogue has the largest triaxial carbon crown of any callaway driver ever. Make sure your club status not all Callaway Golf equipment will be eligible for the trade. The next low spin, but do not fall out of thin air. Savings do not apply to tax or transportation costs. It was six months after I bought it. I made purchases for myself and my wife from Callaway on a pre-owned site and I have always believed that clubs are better than the advertised rating. Everything I ever bought from them was. Some time ago I broke open every piggy bank I could find in the house and purchased enough golf clubs to move callaway stock up on the block. Next, so I don't have to regrip the club as soon as I get it home. Follow, continuing the turn hard to the end. I loved it so much, I bought Fairway wood, and a hybrid. The promise of a large certified pre-owned club doesn't stop when you hit the course. Very impressed to say the least. Only certified pre-owned clubs come with the same 1-year limited warranty against defects you get with any new purchase of the Callaway Golf Club. They have been struck very few times, if at all, and show almost no wear. The next Score 4 out of 5 rock on Ron from a great looking driver to be patient takes time to adjust to the big head and different feel and sound when you hit this club I would recommend going driving range and using different loft settings before you go on the course. It's not 30 minutes on the range with a range of balls, pro looking over your shoulder, and an awkward conversation at the end about whether you want it or not. If it is found that your club has a factory defect, we must immediately replace it or issue a loan for the full amount. . Good condition: These clubs have seen normal use usually a few seasons but are in better-than-average form for this particular club model. Next it's the only place where I buy a club without seeing it in the first place. As noted in the Trade Rules, clubs with certain characteristics may not be sold on new or previously owned Callaway Golf products under Trade In! I was slicing the ball and I usually hit it pretty straight. You can try when, where and how you want for two weeks before deciding Do you want to buy it or not. Bought several clubs from Callawaypreowned, including drivers, fairway woods and irons, like callaway brand and other brands. The sound and sensation of contact just doesn't seem solid. Clubs that Rattle Rattle Acceptable Terms of Trade with a deduction: 1. It is not surprising that the new Rogue Irons will feature Face Cup technology as the driving force behind the impressive ball speed and distance they produce. I don't need to meet new people any more! The original packaging is not part of the device, but all the necessary accessories and institutions are included. We have outlined a guide to the conditions that we follow and use to evaluate our clubs, but the best referee of all the photos. Our own three-axis carbon composite is extremely lightweight and strong, saving significant weight. I bought clubs from them a few times, mostly Mix heads and shafts when they ran big deals. This means that if something happens to your club, which is directly related to the original production defect, we will fix or replace it. Further such scratches are common on polished soles with most Callaway Golf painted scaffolding. The shafts are still in excellent working condition and have been tested to make sure they maintain proper flexibility. In some cases, items will be shipped when they become available, not necessarily when placing an order. It was difficult for me to control the flight of the ball with this club. See something you like but aren't sure it's a club for you? This is related to and there is no need to share it with us. Like I said, took a few swings to get used to it, but what difference does it make. More recently, he introduced Jailbreak technology in his Epic and Rogue Line driver, making them the most popular drivers in the game, and his use of Face Cup technology to increase ball speed in the fairway of the woods, hybrids and irons has put the company apart in these categories as well. Coming to the Calloway-owned hybrids that you'll find on the Callaway Golf Pre-Owned website include all of their hybrids including XR Irons/Hybrids, Big Bertha, X Hot and X2 Hot, Apex Utility and X Utility/X Utility Prototype including combo kits and clubs for juniors. Each club has gone through a callawaygolfpre-owned.com 10-point inspection process that checks the structural integrity of all parts, authentication, clutch replacement, field testing and cleaning. callawaygolfpre-owned.com also sell owned brands from other top names including Adams, Cleveland, Cobra, Ben Hogal, Mizuno, Nike, Ping, TaylorMade, Titleist and Top Flite. All clubs are evaluated after inspection to make your purchase easier. The highest ranking is the exit condition it is clubs that have never been impressed but cannot be sold as new as they have been floor designs or demo clubs. Like the new conditions, clubs are almost impossible to distinguish from new ones. Very good condition clearly suffered, but still look great. Good-condition clubs have seen normal use (usually several seasons) but are in better shape than average form for this particular model. Medium club conditions were used but not abused. They will show normal wear from frequent play and can natural scratches, pop-up marks and/or bag wear on the shaft. I just ordered 2pm Grind wedges from pre-property and ordered an average status rating. The clubs came today and they're generally not average, they're much better. Now they don't look like new or anything, but they're really good. Is that what others are saying? If so, I might spend more time there. 15 · A share on FacebookShare on Twitter our Utry program® gives you the opportunity to try out brand new products from the best game brands for just \$25, or \$100 per iron set. It's right-you get a new one, back in a plastic club, to try for two weeks for just \$25. You can try when, where and how you want for two weeks before deciding if you want to buy it or not. Want to test two different brands or two different configurations? No problem. Utry® allows you to try up to 2 products for \$25 per product or 1 iron set for \$100. It's not 30 minutes on the range with a range of balls or looking out of the Pro-Shop window. You can try the product at your time, when and where you want. Utry® gives you the freedom to take golf clubs, GPS or Rangefinders to your course and use at your pace! Use it as much as you like, so you can really know what the product will do for your game before investing in it. If you don't like it, just put it back in the box it came in, use included prepaid return shipping label, and send it back to us. That's it. If you love it, it's awesome! You keep the product, we will deduct the \$25 trial fee from the final cost of the product and we will charge you the difference. Browsing the choice I'm thinking about buying a callaway preowned wedge in the middle state. I don't want any wedge with trim completely worn out and grooves messed up. Does anyone have experience with their mid-sized clubs? Page 2 9 Comments Trading Methods Trading Methods of Delivery Metrics Courier Channels Communication Email, Phone Sort by: The latest highest filter rating: No 5 stars 4 stars 3 Stars 2 Stars Useful I placed an order for a set of female left-handed clubs. Today in the mail I received the same set but for the right-handed golfers and he is also missing 4 club! I called the store back and reported that after my purchase, they actually sold out all the left-handed women's clubs and that they now have no options for me. They are offering a return, but all the other women left-handed callaway clubs that have been for sale online have since sold out, so now I'm unlucky. I wouldn't recommend this company if you care about actually getting what you ordered. bought like a new wedge he wore and guage on his face only worse than not getting like a new club to pay 5 bucks for the return of the label. . don't use them ever again Just got Callaway XR Speed Driver, State state advertised as very good, however I would say it has not seen a single golf ball as a club and shaft completely unmarked and looks brand new. The club also came with a wrench and instructions again as new. The delivery was super fast, great club great service. I booked the driver in as a new fortune for \$350 and they literally sent me a club with a giant sky mark dead crown center. Insult, without remorse on the part of this company. Beware, the clubs are in decent condition. BUT don't expect delivery on time. Calaway has now sent my order twice. This means that they have printed a delivery label that clears their order labeling system sent. But it's not shipped. Still waiting to leave the warehouse. If you pay for a night or a 2nd day. You will spend your money, I ordered a set of tayormade r7 irons they came in exceeded all expectations I mean 120.00 5-sw with giant grips love EM. I can express how easy it was to place an order thanks to a callaway pre-owned. I ordered a set of irons when I read the order I noticed the flex shaft was wrong. I called CS got an RMA. Paid for the ups of the label, I got the clubs in the box. Put the label on the pitch sent the clubs back and Callaway charged me a top-up fee. When I called to get RMA from CS. I ordered a set I originally ordered all I was getting a replacement kit to replace the ones they sent. Top up my ass fee, beware of their thieves in my opinion. I bought two clubs, one in good condition and one in average condition, but both within 5% of the price for a similar club. Good club great, average - rubbish; state below what I would like to see in the thrift store \$2 club. Callaway were responsive, they told me they averaged 1-2 on a 10-point scale, but I had to haggle to make them pay for the club's return. If I use them again, I wouldn't trust anything below good in the future if I use them at all. Ordered the club, and was looking forward. When I got the box I opened it and started removing it from the box. The shaft near the head seemed to be a bit of a crack when I took the club out of the box head to feel completely off the shaft as the shaft was broken. Tried to get to them and got 0 response. I am disappointed with the shipping services and return policy experienced in my order. When I made the order, I chose a 2 day delivery service and wrote my PR address. I got \$39 for the delivery. However, the clubs arrived after 8 days. I wrote customer service and the answer was that the delay was because it was ground delivery. Land shipping in Puerto Rico???? \$39 for ground services. Anyway it wasn't the only problem clubs I got weren't in good terms as advertised, many signs and bad pens. When I come back, I got the RMA number, but after I bought my UPS label was abolished because it did not apply to Puerto Rico. (PR is a U.S. territory, not an international country). So I had to spend \$62 more to bring back the clubs. So I paid \$39 for a ground delivery and had to keep unwanted clubs because the UPS label application was rejected. In the disclosure below on the callaway page, you see any warning that the ups label does not apply to Puerto Rico orders??? Need a reverse delivery label? Add this UPS Return Shipping Label label to your order for as little as \$4.99, and we'll write you a return label. Returning products or sending us your Trade-In clubs has never been easier. Delivery is guaranteed by a specific date, arrived three days late. Even an apology or something. Lure people into buying your product with a fast ship, then don't fulfill your promise. Great price, the quality was better than I thought it would be. I've found a new way to buy clubs more often. And the fairway scaffolding went on sale 3 days later and I got the difference back no questions asked. Definitely there will be a customer return Buyer Beware!! I ordered individual irons from Calloway Preowned 20-December 2018. They provided a 30% discount on orders over \$300.00 USD that I received. Based on their promise of a price match guarantee, I checked the price of the same clubs, the same condition for 30-December 2018 and found that each club was listed at a significantly lower price than what I paid when I booked my clubs. When I moved in for 14 days, January 2nd-2019, I received an answer that I had made the right to a new lower price. A representative of the service explained his shell game in this way. On my order, the discount was applied to all my order at the end of the process, so the price did not reflect the discount. The new lower prices listed on their web sight have already included discounts so that the new prices were actually no lower. It's the kind of shell game that I would expect from a much less reputable company, but apparently Calloway Preowned falls into this lower category as well. I won't be buying any extra items from Calloway Preowned Golf because of their lack of integrity in the way they advertise their prices to avoid the hollow promise of a 14-day match price guarantee. Just got my Callaway Big Bertha OS Iron Set No. 4H and 5H. clubs just as described. As usual, Callaway Pre-Owned delivered fabulous clubs, at a fabulous price. This is my third, not the last purchase they have. The deal was easy and I got the clubs within four days. It's amazing. Thank you Callaway Pre-Owned, you are the best. There were a lot of deals with Callaway PO. The state of the clubs I purchased was as advertised. The overall process was fine. My last two orders; However a little anxious. On the one hand, as a new condition Bertha OS Iron set had different angles of lies for each of the clubs. I had trouble hitting the irons with any consistency and went to the locksmith club who found different angles of lies. On my last two orders, I traded. Both times, Callaway PO exceeded its posted guidelines for loan repayments for trading in clubs. It is said that the normal processing time is 7-10 working days. The first order took 16 days and was expedited because I contacted them several times. I am currently awaiting credit for trading in the clubs they received from me 13 working days ago and I am now being told the processing time is 20-25 days; double the time posted on their website. Great clubs for not too expensive. Honest about the state of Callaway Pre-Owned is rated 2.56 based on 16 reviews
