But whether or not you're looking for Skyblock, Hunger Games, factions or just a quaint good survival, our list of Minecraft servers will give you a top-notch choice of reliable and respected servers to play with. The best Minecraft 1.16.1 servers To get caught up in participating in any of the top-level Minecraft servers below, all it is essential to do is copy the textual content from the server's IP address, after which in the Minecraft multiplayer menu choose Add Server and paste the textual content you copied into the Server Address field. Give the server a reputation, click Done, and be part of the server. Easy! Below are our selections for the easiest Minecraft servers for 1.16.1. Click hyperlinks to browse each server what it offers. Hypixel ? Mineplex ? MCCentral ? Minewind MineSuperior ? WilderCraft ?? Herobrine.org of the DatBlocks' house ?? CubeCraft ?? HiveMC ? ExtremeCraft ? Hypixel Server IP Address: mc.hypixel.internet Game Modes: Survival, Survival, Skyblock, Hunger Games, Minigames Well, let's get the plain out of the way where; in any case, how could we have a list of Minecraft servers with outside talking about Hypixel, the undisputed titan of minecraft servers? Whether you're concerned about aggressive PvP and Minecraft or an extra relaxed and unbiased survival experience, Hypixel has a few dozen totally different modes for you to select from, all offered through an easy-to-use stock interface. Whatever type of Minecraft participant you can be, you'll discover one thing you like in Hypixel. That's what brings tens of 1000 players day in and day out. Mineplex Server IP Address: us.mineplex.com/eu.mineplex.com game modes: Survival, Hunger Games, Mineplex Minigames is another huge Minecraft minigame server that was first released through the same time as Hypixel. Raking in 1000 players daily with his distinctive choice of minigames from faction warfare to build-battles to Block Hunt (the Minecraft model of GMod's basic prop hunt), Mineplex has completed incredible work for everyone on all of its EU and US servers. MCCentral Server IP Address: mcentral.org game modes: Survival, Creative, Skyblock, Hunger Games, McCentral Minigames is another Minigame and multimodal server that has a condensed option however very complete in totally different modes, each usually with a number of servers out there. There's a fully convenient Shared Creative Mode server that resets daily, where you can go to see your Creative (and WorldEdit) experience. There are plenty of servers for Skyblock, UHC, Prison, Factions, Hunger Games, Capture The Flag and more. Also, its lobby is amazing, so there's that too. Minewind Server IP Address: gg.minewind.com game modes: Survival Minewind has quite a reputation as an anarchy minecraft server. That is, there are no anti-griefing or anti-being-a-dick guidelines of any kind. The only exhausting rule is: not dishonest. It's a place of true freedom of survival. No factions, no zoning, no safety nets. It is an unforgivable and difficult place, with no shrubs in sight except that the company has withdrawn from the relief. However, for those who actually manage to survive and do one thing for yourself on this server, then that's positively one thing to be satisfied with. But don't count on that until the final. MineSuperior Server IP Address: hub.mcs.gg game modes: Survival, Creative, Skyblock, Factions If you are looking for Skyblock antics above all, MineSuperior should be your first cessation. This trendy 1.16.1 server is full of variations in the usual formulation Skyblock, along with a few different game modes if Skyblock is not your style. Everything is definitely accessible and clear, that means you can start participating in what you need to play immediately. Immediately. Server IP address: play.wildercraft.internet Game Modes: Survival If semi-vanilla phrases, nature themes, and help each other attraction for you, then WilderCraft may be your most suitable choice on this entire list of Minecraft servers. Within the spectrum of Minecraft survival public servants, it is almost the other of anarchy's servers like Minewind: the emphasis here is on collaboration and neighborhood, and collectively try to build and get a number of interesting things. For those looking to meet new players and have an extra relaxed and relaxed survival experience, WilderCraft is ready and ready. Herobrine.org Server IP Address: herobrine.org Game modes: Survival, Skyblock, Minigames One of Minecraft 1.16.1's favorite and highest rated servers, Herobrine.org is another rival to the titans of the minigame neighborhood, providing everything from common survival mode to Skyblock, Factions and their immensely fashionable Bed Wars realm. It's a splendidly crafted Minecraft experience that presents everything with polishing and headache. Datblock Server IP Address: play.datblock.com game modes: Survival, Skyblock, Minigames Another Minecraft server that offers a lot of survival experiences from vanilla to Skyblock, Datblock has the added attraction of a collection of distinctive ideas for survival experiences that we haven't seen like anywhere else. The bold Datearth mode is performed on a map of Earth, and offers geopolitical gameplay with cities, nations and war, while the equally novel Datmars throws you into an almost inhospite rock paying homage to the Martian soil, the place where you could have the task of survival, if in any potential sense. CubeCraft Server IP Address: play.cubecraft.internet Game Modes: Skyblock, Hunger Games, CubeCraft Minigames contains a smaller option, however, possibly extra intricately designed minigames and modes that most Minecraft servers can provide. I've been having a ton of nice with its wide variety of parkour maps, with a number of themes containing varied ranges across three totally different broadcast modes. And that's just parkour. The different modes that CubeCraft offers are equally elaborate and well designed, with a lot of players at any given time logging into SkyWars, Tower Defence, Archer Assault, or any of the opposite modes of their rotating choice of fashion games. HiveMC Server IP Address: play.hivemc.com game modes: Survival, Hunger Games, Minigames HiveMC is another contender for one of the best minigame options on a Minecraft server. You've bought all known faces there, after all: BedWars, Hunger Games/Survival Games, Parkour, Death Run, and so on. But you've also bought Cowboys & Indians, SkyGiants, Splegg, The Herobrine, and a lot of less widespread modes, however, equally well designed to immerse yourself in whenever you really feel the need for a new thing. ExtremeCraft Server IP Address: play.extremecraft.internet Game Modes: Survival, Creative, Skyblock, Hunger Games, Minigames ExtremeCraft is another Minecraft server that does an amazing job mixing outdated, tested and tested modes with all new ones. Based on all forms of Minecrafters, from builders to fighters, all minigames and modes that appear in ExtremeCraft are performed by a daily heap, and are supported by always updatable leaderboards and statistics visible on the ExtremeCraft website. Desteria Server IP Address: high.desteria.internet Game Modes: Survival, Factions Desteria sizes a neighborhood piece of Minecraft faction servers by itself. This server spoils players for selection in relation to faction play, allowing them to decide between a number of realms (for informal or aggressive experiences) and plenty of personalized courses and perks, from Wizard to Assassin to Pirate and extra. And with that, unfortunately, we conclude the information on our Minecraft servers. Let's hope you've discovered a server or two that just likes the sounds of, and you're actually cheerfully out of building fortresses in the sky or drowning your enemies in lava. But for those who are looking however for their subsequent Minecraft journey, why not take a look at our best Minecraft seeds 1.16.1 information, the place we have listed the easiest Minecraft seeds for the 1.16.1 model! 1.16.1
