Makey makey games pacman

Bongos: Play some bongo drums with the space bar and left arrow. Make everything a drum! PianoA piano designed for Makey Makey. Play a melody with the arrow keys and spacebar (and click too). MK-1A sampling synth made by Eric Rosenbaum for Makey Makey. Record your own sound, use preset scales, and set the keys to play the notes you want. Scratch PianoThis is a piano you can play with the arrow keys. It was created using Scratch, an easy to use graphical programming language so you can remix it and make your own version. Makey Makey Midi Player This awesome midi app was created by Makey Makey ambassador Liam Baum (aka MrBombMusic.) He built this app with p5.js & Soundfont-Player. Connect your Makey Makey and choose an instrument from the dropdown and start playing a full scale with the instrument of your choice! (Note: you will need to remap a few pins on the back of the board for keys h and j.) Virtual Musical Makey Makey This app was created by Johnny Tal as a way to easily upload any sound you want for any input, or choose an instrument from the list and easily monitor what is being unleashed on the virtual Makey Makey. Piano Genie Another great piano app! Click the settings wheel to change the piano keys to Makey Makey keystrokes and start playing! Sound effectsThis page turns the keyboard into a sound power machine. By connecting to the letters on the back of your Makey Makey, you can create your own way of triggering sounds. Play along with the video for a piano duet! Soundplant This downloadable app is great if you just want to drag and drop sounds on the keys on a keyboard, and then press the keys to play them. Try it with the example keymap we made with drum and marimba sounds for mac or windows. Makey Makey OneClick Drum 1 Button Piano Makey Harp Confirm your email to enable sharing. Are you in trouble? x We are experiencing an interruption with email delivery. If you don't receive emails from us, try after 8am EST. x What is Makey Makey? Turn the whole world into a keyboard. It is a simple Invention Kit for beginners or experts making art, engineering, and everything therein How does it work? Alligator Cut Two Objects for Makey Makey. For For you and a banana (or an ice cube, or a kitten cat). When you touch the banana, the computer just thinks a keyboard is being pressed so you can write a letter, jump in a video game, take a picture, or play some music. Who Is Makey Makey For? Children, Artists, Educators, Engineers, Inventors, Makers. Really it's for everyone. What materials work with Makey Makey? Ketchup, Pencil Graphite, Finger Paint, Fruits, Plants, Coins, Your Grandmother, Silverware, Everything That's Wet, Pets, Aluminum, Rain and Hundreds More. Really any material that can carry at least a little bit of electricity. What can I create? Make a banana piano, play Mario on a player dough game pad, take a selfie of your cat every time she drinks water. How? First, start a computer program or web page. Let's say you put up a piano. So instead of using computer keyboard buttons to play the piano, you can connect Makey Makey to something fun, like bananas, and bananas become your piano keys. Hundreds more examples can be found at MakeyMakey.com- First pack your Makey Makey kit.- Collect all materials.- Plug in the USB cable supplied in the laptop and the other end in makey makey.- Plug into the cable and the ground itself. One end goes into the 'Earth' input of Makey Makey. Just hold the other end to the ground Makey Makey.- Use electric paint to create a printed circuit board. In this case using an electric pen.- The second paint did not try quickly, so I switched to another electric paint pen. Connect the cables and connect them to the specific input on makey makey.- I can now play Pacman using the controls that are printed on the paper. Paper.
