Epson wf-3540 ink

Features Notes: 1 ISO ppm is based on ISO/IEC 24734. Black and color print speeds are determined in default, letter size, one-sided mode in accordance with ISO/IEC 24734. Black and color 2-sided print speeds are determined in letter size, 2-sided mode in accordance with ISO/IEC 24734. Actual print times vary depending on system configuration, software, and page complexity. For details, including full ISO reports, see www.epson.com/printspeed.2 Screen perpatality based on accelerated tests of prints displayed under glass in indoor viewing conditions; Accelerated testing of prints in dark storage conditions inbased album pererability. Actual print stability varies depending on environment, printed image, display conditions, light intensity, temperature, density and atmospheric conditions. Epson does not guarantee the longevity of prints. For maximum print life, view all prints under glass or UV filter or store them properly.3 Backup cartridge yields are consistently based on ISO/IEC 24711 tests for default mode printing. Cartridge yields vary significantly for reasons such as printed images, print settings, temperature and depressurized. The yield may be lower when printed with a sparse or predominantly ink color. All ink colors are used for printing and all-in-one maintenance, and all colors must be installed for printing. For print quality, some of the ink from the included cartridges is used to start the printer, and a variable amount of ink remains in the cartridges after the cartridge replace signal. Wi-Fi certified services for www.epson.com/cartridgeinfo4™; the level of performance subject to the range of the router used. 5 Most features require an Internet connection to the printer, as well as an Internet and/or e-mail enabled device. See www.epson.com/connect for EPSON Connect-enabled printers and a list of compatible devices and apps.6 Some apps and/or functionality may not be supported during the Mac OS X.7 Monthly task cycle. Running the device on this task is not recommended. For best device performance, run the device on the recommended task. Fastest in its class; Print black text in default, 2-sided mode, in accordance with ISO/IEC 24734. As of December 2011, the best-selling color laser priced at \$450 or less as of February 2012 cost 40% less than the laser compared to all-in-one, compared to all of them with inkjet priced at \$199 or less based on manufacturers' published iso speeds. Calculation based on continuous printing and prices of multi-pack ink cartridges. Actual savings vary depending on the print task and the terms of use. Improved durability compared to the previous model. For more information, go to www.epson.com70% less power than laser compared to best-selling, colorful laser printers priced at \$399 or less as of April 2012. Actual power savings vary depending on product model and usage. www.epson.com/recycleSmartWay is an innovative partnership with the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency, see our website for affordable and reasonable recycling options.
