Five Nights in Anime 2 is a fan game that is free to download using the APK android file. This game is a parody version of the famous FNAF horror series inspired by anime graphics. As a parody of the original game, Five Nights in Anime (FNTA) brings a lot of fun to players who are fans of the original series. FNTA features survivors in the anime world where you will play as a night guard in a restaurant using human hybrid animatronic characters to attract customers. Animatronic characters are inspired by sexy anime girls who will be interesting to male players. As in the first game of the FNTA series, FNTA2 has everything in FNAF 2 in parody style. Animatronic girls from the FNTA series will not kill or jump on the player. They will show love to anyone they see, not. However, they

do not know that people are vulnerable and fragile, who may die as a result of being loved. It is not recommended that Five Nights in the Anime 2 be played by non-aged players. It's free to download and can be played on android devices using APK files to install. FNAF © 2018 Scott Cawthon All Five Nights At Freddys related material rightfully owned by Scott Cawthon All five nights in anime-related fan-game material owned by Mairusu Paua Copyright Waiver under Section 107 of the Copyright Act 1976, the allowance is made for fair use for purposes such as criticism, criticism, news reporting, teaching, scholarships and research. Have you ever wanted to survive against Mairusu's adorable (and attractive) parody characters in the visual format of the novel? Well now you can! Should I do these routes? SHOW MORE Load More Comments It's official port five nights in Freddie 2! Please note that this game REQUIRES 512 megi ram. Please make sure your device will be able to launch it before you buy it. If you have a new phone then this shouldn't be a problem! If you're not sure if your phone will work, DOWNLOAD DEMO FIRST, which is also available on Googleplay!-----Friend back to Freddie Fazbear's new and improved Five nights in Freddie 2, old and aging animatronics are joined by new characters. They are childish, updated with the latest in facial recognition technology, linked to local criminal databases, and promise to put on a safe and entertaining show for children and adults alike! What could go wrong? As a new security guard working nights, your job is to monitor the cameras and make sure nothing goes wrong after an hour. A previous security guard complained about characters trying to get into the office (he has since been transferred to a day shift). So to make your job easier, you've been given with your own empty head by Freddie Fazbear, who has to trick the animatronic characters into leaving you alone if they should accidentally enter your office. As always, Fazbear Entertainment is not responsible for death or dismemberment. Explode. fnia 2 download apk android
