One wheeled skateboard uk

It's a win if you ask me Pocket size awesome. 6-8 miles range 16 mph top speed Meet Pint Double freedom. Range of 12-18 miles 19 mph top speed Meet XR @onewheel Out of stock Specification Description Introducing Onewheel+ XR. The most beautiful riding experience in the world now goes 12-18 miles on a single charge. Enjoy great adventures and enjoy impeccable journeys. The Onewheel app can be used from your smartphone to choose one of 5 driving modes so you can customize your Onewheel + XR to any terrain you choose to chop. The dream was to be able to go on bigger adventures, do more, ride on. Onewheel set out to make it happen with an expanded Range Onewheel+ XR. It's a board we've always wanted to ride. What's in the box: Onewheel+ XR, XR Home Charger *Onewheel comes with a 1-year warranty directly from the manufacturer - Future Motion. The brand It all comes down to creating a vehicle from the future and driving into the sunset with a smile from ear to ear. Shipping and warranty If you're looking for a unique way to travel that lets you bypass traffic and have fun at the same time, consider getting a Onewheel electric scooter. Single-wheeled scooters were introduced to the market in 2014 and combine elements of snowboarding and skateboarding. On eBay you can also find new and used onewheel scooters at reasonable prices. Onewheel XR features Onewheel XR is designed to be powerful and robust, something you can download on different terrains without worrying about handling harsh conditions. The new or used Onewheel XR for sale has a range of up to 28 miles. It has a top speed of 19 mph, so you'll definitely feel the wind in your hair while driving. Some features that onewheel XR for sale will include: Hypercore brushless motor Fast stop power LED lights Connects to the Easy Turning app, through the leaning Italian 11.5x6.5-6 race tyre CNC machine-tight aluminum frame rails of African mahogany why can you consider the Onewheel Pint? The pint is a smaller version of the XR, 27 inches long. This gives it versatility in terms of your travels; You can take a pint with you on a bus or train, and you can keep it next to you in the restaurant or in the office. It has an integrated Maghandle so you can keep it by your side while walking in busy areas. When driving, the handle - which magnets hold in place - can be tucked into its compartment. Pint features: Impact-resistant bumpers Matte coat powder A 10.5 x 4.5-6 tyre Light strip that lets you know how much battery you left Precision footpad sensors Are older models available on eBay? When looking for a used Onewheel for sale, you may come across two other versions of Onewheel. Two types are: Original Onewheel V1: The Onewheel V1 has a top speed of 15 mph and an estimated range of six to eight miles. Could be. In 30 minutes (estimated), and uses a 500W transverse flux hub V1 engine with a battery of 130 Wh Lithium Iron Phosphate 48V. Onewheel+ Onewheel Plus uses the same type of battery as the V1, and has the same charge time of half an hour. It uses the 750W Engine HYPERCORE, and has a top speed of 19 miles per hour, with an estimated range of 5 to 7 miles. Pimp your beer! I know you'd think a Onewheel Pint couldn't be brighter, but we're here to make you..... We can do it!!! Adjust the pint with mudguards, bumpers, rails and plugs and stand out from the crowd! Coordinate colors or move away from the norm, you can do all this with the available Pint accessories. The Onewheel Pint is powered by a 750 Watt engine that is housed in a 10.5 inch tyre. It has a lower top speed and range than the XR, but is lighter and includes simplestop technology that should make it easier for beginners to drive. Its lighter weight and smaller dimensions make it the perfect urban shredder, and still retain incredible swearing and acceleration. Just like the XR, Pint doesn't have a handheld remote control and its built-in handle is an amazing innovation. At almost half the price of its strong predecessor, the XR, Pint is really in its parentheation!! Onewheel should only be used on private land. For a free demonstration, visit our store! Check out our brands in the 750W Motor Hypercore hub action, providing a one-way smooth, responsive power that can take you off the beaten track. Hills, forests, beaches, dunes and more can now be shredded 24/7 with Onewheel. The braking system regeneratively proves a driver with greater range and shredded time. Onewheel has 5 x driving modes, so whether you like cruising the streets or hitting the hills there's a driving mode that suits you. They are managed by the Onewheel app, which provides the driver with a wealth of information such as battery percentage, distance traveled, speed, and more. All of the above features make Onewheel completely unique, but on top of all this, it does not need a remote control. You lean forward to speed up and lean back on the brake which is really intuitive and makes the Onewheel even colder. Onewheel should only be used on private land. Snowboard all season, dominate any... Onewheel 5 2 Captain G Posted on 9 July 2020 at 21:01 I'm supposed to be a wise, wizard-like sage at my age, old enough to know not to lick electric fences, eat yellow snow or sit on a pointed fence, certainly, everyone tells me that I should consider different types of tartan slippers, lining for coffins or which political party has the best policy. Yawn. Luckily, nope, not me. I don't know if that was my Trout Diem attitude or a bottle of vodka that made me dive in and buy a Onewheel XR with all the sauce and decorations and damn consequences? But look, I did it, and now, three days later I'm zipping around my garden like a greased eel around a buttery Frisbee. Like the kids say, no Regerts. It takes a few hours to get the confidence to start really riding and to be honest, I had to fake my currently confident self over my huge, bulky stupid carcass that was honestly tinkering with ingots. Just a little speed and a couple of cool turns and there was no turning back. I'm far from speeding down the high street, pew-pew, finger-snapping all the pieces as I slide into town to pull a graceful bow on the bar wink at the waitress, but I really feel like I'm going to get there and this time she's not going to throw anything at me. The surfdoctor was great. I tried to find them to give me reasons not to I was looking for a picture of a cat, on a onewheel, on a whale, with laser eyes, and Telling me to clean up because I'm weird, Tris took on the challenge, hit the photoshop and left me with no more excuses. I can't thank him enough because I'm a youthful electro surf guy now. I woke up, I'm good to fly, I'm fire. I'm lit, Mega? I'm, um, cosmically connected to the chillaxed vibe... Daddio?... No, no, I'm losing him. Keep practicing. Laterz Hipsters xx *****Amendment due to the current COVID-19 situation*****After the latest Government council from Thursday 5 November unfortunately we had to close our doors once more to walk to customers. We can still provide click & collect service for local customers, and our UK delivery services are still running as usual. Click & Collect - During lockdown 2.0 we are here to accept Click and Collect orders. There is a free option according to the delivery choices to get off and collect your item if you are not too far away. After processing, it will be in the contact via e-mail to confirm when the item is ready to be collected. Our European deliveries can change at any time due to local restrictions. Contact us by email, chat or phone if you have any inquiries. We offer FREE standard shipping for all orders (£50 and up), followed by the ability to upgrade to Express Delivery (1-2 days) if necessary. We currently use Parcelforce & Royal Mail for delivery and both have changed the delivery process in relation to signing and receiving items in the UK (see below)To protect both our people and customers as much as possible, we will not hand over our handheld devices to customers to record electronic signatures. Our drivers will instead report the name and surname of the person accepting the item and then put 'XP1' in the signature field, and we will record the geolocation of the delivery. This will apply to all deliveries that typically require a signature. If recipients are unable to come to the door or are in self-isolation, we will publish the customer contact card in a normal way, advising other ways in which the recipient can arrange to obtain their item. For example, so that a friend or family member (who does not reside with someone who is in self-isolation) picks up the shipment from the local Parcelforce warehouse or post office, as stated on the card. They will have to bring the card we left and the ID form in the name of the person to whom the item is addressed. Examples of a suitable ID card are listed on the card. UK ShippingAll items ordered online with us here at The Snowboard Shop are sent within 24 hours (except for orders placed on Saturday to be placed on Monday). Shipping options are as follows for UK Mainland:We use Royal Mail or Courier (Parcelforce) depending on which delivery option you choose: Standard shipping (3-5 Days) - FREE (more than £50)Express delivery (1-2 business days) - £4.95 We charge slightly more for deliveries including Snowboard due to the cost of delivering packages of this size. Standard shipping (3-5 business days) - FREEExpress shipping (1-2 business days) - £6.95For all purchases totalling £50 standard delivery is FREE and you'll get the option to upgrade to express or the next day if you'd rather when checking out. Entries will be sent through Royal Mail on Signed for (Standard Shipping). Express/Next Day deliveries will be sent via Parcelforce. Once the item has been sent, you will receive a tracking number via Royal Mail or Parcelforce.UK Non-Mainland We can still deliver to you if you are not on the mainland of the UK (i.e. Northern Ireland). Call us or email us if shipping costs are unclear. (Northern Ireland has its own drop in shipping when you check out). International/European Shipping If you are not based in the UK, but you have seen the item(s) on our website that you want to buy, then simply add them to your shopping cart and select your country when charging. We use a combination of UPS and Parcelforce for international delivery. [There are some countries we're not shipping too much at the moment] ReturnThe best e-mail info@thesnowboardshop.co.uk 14 days from receipt of the purchase request a return number before returning the item because we are unable to accept returned entries without a RETURN NUMBER. We expect you to be completely satisfied with your purchases from The Snowboard Shop. If you buy an item and it is damaged, does not respond or if you have simply changed your mind, email us within 14 days of receiving the purchase and we will replace you, issue you a loan or refund (indicate your preferences when sending an email for a return number). All returned items must be returned to their original packaging with labels and labels attached. Please also share your original certificate. Returned items that are defective are entitled to a full reimbursement, including postage costs. Items that are returned because they do not respond or are no longer in demand are not entitled to a mail return. Store-bought items can be returned within 7 days with a valid credit card account at the manager's discretion. Discretion.
