# POSSIBILITY WEEK SCHEDULE

## NEXT CULTURE NOMADS GATHERING WEEK 24.–30. September

More Possibilitators and Possibility Managers are becoming nomadic.

During this week we are offering a space where we can come together and share our legends, troubles and challenges, as well our successes.

Coming together as a tribe of Radically Responsible Human Beings to celebrate life - together. Practise, built new collaborations, share and dream together, building alliances, new projects... The necessity is our guide.

## MATRIX UPGRADING READING WEEK 19–25. November

We want to read. Read for one week. This is an opportunity to dive into your next book from the Possibilitator Libary and to have others to share your gold, which you got out of the pages you are reading. Imaging the ecstasy for all your bodies! Reading together is shifting into a spaceship of distinctions and stories, an extraordinary space of exchanging value with each other. Reading a book for each other is sharing intimacy in an extraordinary way.

## ARCHIARCHY RADICAL RELATING RESEARCH WEEK 8.–14. October

How do we relate in daily life? How is it to speak from all your parts, with all your feelings and emotions within a safe container. Bring your partner and your friend and practise together.

Experienced Coaches, Possibilitators, Possibility Managers are in this week together to support each other within their research.

## LEGEND(s) MAKING WRITING WEEK 26. November – 2. December

How many articles you have already in your Beep! Book? Too many piling up?

It's time to get it out into the world to water the seeds in many readers, future Culture Creatives and possible Bridge Builders to sprout their lives into Archiarchy.

During this pop-up Writing-House, we support each other to cross read and to give Feedback and Coaching.

What is holding you back to share your treasures? Now is the time and here is the space to start. Join in into this extraordinary and precious week of creation.

## TORUS TECHNOLOGY PRACTISE WEEK 29. October – 4. November

During this week we are practising different Torus Technologies like, Convergence & Divergence, Purple Card, Poop on the Table, Wok, Frying Pan, Resistance Decision-Making, M.E.S.S. Process, Village Process, and probably we will create other extraordinary group process together.

## CELEBRATION and CLOSING WEEK 11.–16. December

How do we celebrate these days? How do we celebrate such an amazing 3 months project coming to an end in the midst of December?

To honour the things which did not work and which worked amazingly fine is an exquisite endeavour. To find the balance to clean the table and to leave a legend and the same time. For one week, the last week is dedicated to celebrating, to appreciating and to sorrow.
