Society the basics macionis pdf

John McOnies was born and raised in Philadelphia, Pennsylvania. He holds a bachelor's degree from Cornell University and a doctorate in sociology from the University of Pennsylvania. John Makionis' publications are broad, with a focus on social life in the United States, interpersonal intimacy in families, effective learning, humor, new information technologies, and the importance of global education. In addition, John Macionis and Nijole V. Benokraitis edited the best-selling anthology Seeing Yourself: Classical, Contemporary, and Cross-Cultural Readings in Sociology. Macionis and Vincent Parrillo have written leading urban studies of text, city and urban life (Pearson). The latest Macionis tutorial is Social Problems (Pearson). John McVienis is a professor and emeritus scholar of sociology at Kenyon College in Gambier, Ohio, where he taught for nearly thirty years. During this time, he headed the Department of Sociology, led the college's interdisciplinary program in the field of humane studies, headed the campus senate and college faculty, and taught sociology to thousands of students. In 2002, the American Sociological Association presented Makionis with an award for outstanding teaching, citing his innovative use of global materials, as well as the introduction of new teaching technologies in his textbooks. Professor Makionis is active in academic programs in other countries, having visited about fifty countries. He writes: I am an ambitious traveler, eager to learn and, through texts, to share most of what I discover with students, many of whom know little about the rest of the world. For me, travel and writing are all aspects of learning. First of all, I'm a teacher - the passion for learning brings everything I do animate. At Kenyon, Macionis teaches a number of courses, but his favorite class is Introduction to Sociology, which he offers each semester. He enjoys extensive contact with students and invites anyone who has enrolled in each of his classes to enjoy home-cooked food. The Macionis-John family, Amy, and the children Of McLean and Whitney live on a farm in rural Ohio. In his spare time, Makionis enjoys tennis, swimming, hiking and playing rock 'n' roll (he recently released his first disc). Macionis is an environmental activist in the Lake George area of Odirondak Mountains in New York City, working with a number of organizations, including Lake George Land Conservancy, where he serves as president of the Board of Trustees. John McOniz (pronounced ma-SHOW nis) was born and raised in Philadelphia, Pennsylvania. He holds a bachelor's degree from Cornell University and a doctorate in sociology from the University of Pennsylvania. His publications are broad, with a focus on public life in the United States, interpersonal intimacy in families, teaching, humor, new information technology and the importance of global education. He and Nijole W. Benoit edited a companion volume to this text, Seeing Yourself: Classical, Contemporary, and Cross-Cultural Readings in Sociology. Macionis is also the author of Sociology, leading the hardback text in this field, and he collaborates on international editions of texts: Sociology: Canadian Edition (with Linda M. Gerber, of Prentice Hall Canada), Society: Basics, Canadian Edition (with Cecilia Benoit and Mikael Jansson, also of Prentice Hall Canada), and Sociology: Global Introduction (with Ken. Sociology is also available in various international and foreign language publications. In addition, Macionis and Vincent Parrillo wrote the text of urban studies, city and urban life (Prentice Hall). Macionis' newest text is Social Problems (Prentice Hall). The latest on all Macionis textbooks, as well as news, information, and dozens of internet links of interest to students and teachers in sociology, can be found on the author's personal website, or . Additional information, as well as online text guides, are available on the Prentice Hall website. . John McOnies is a professor of sociology and Prentice Hall Distinguished Scientist at Kenyon College in Gambier, Ohio. During his nearly twenty-five-year career at Kenyon, he led the department of sociology, led the college's multidisciplinary program in humane research, and presided over the Senate campus as well as the college faculty. In 1998, the North Central Sociological Association named Makionis as the winner of the award for outstanding contribution to teaching, citing his work with textbooks and his innovative use of new technologies in sociology. Professor Makionis is active in academic programs in other countries, having visited about fifty countries. In the fall of 1994, he led a global education course for the University of Pittsburgh's Semester at Sea program, teaching 400 students to a floating campus that visited twelve countries, circumnavigating the globe. Macionis writes: I am an ambitious traveler, eager to learn and, through texts, to share much of what I discover with students, many of whom know so little about the rest of the world. For me, travel and writing are all aspects of learning. First of all, I am a teacher's passion for learning animates everything I do. At Kenyon, Macionis offers a wide range of top-level courses, but his favorite course is Introduction to Sociology, which he plans every semester. He has extensive contact with students, and every semester invites his students to enjoy homemade food. The Macionis family of John, Amy, and the children of McLean and Whitney live on rural Ohio. Their home serves a popular bed and breakfast where they love to visit with old friends and make new ones. In his spare time, John enjoys cycling through the Ohio countryside, swimming, swimming and playing rock 'n' roll oldies on guitar. He is currently learning to play Scottish bagpipes. Professor Macionis welcomes (and responds to) comments and suggestions about this book from teachers and students. Write to the Faculty of Sociology, Palme House, Kenyon College, Gambier, Ohio 43022, or direct email to MACIONIS@KENYON.EDU. This study guide was written to strengthen the foundations of sociological ideas and issues that are presented in the text, Society: Basics 10/e, by John Macionis. This is a guide to study: provides outline chapters allowing students to organize segments of information from each chapter in the text, identifies the basic knowledge, explanations, comparisons and understanding that students should have after reading and thinking about each chapter, has important chapter concepts defined, provides the study of questions, including true false, multiple choices, correspondence, filling and discussion of questions and answers to research questions, includes a list of page numbers where the answers to these questions can be found, along with correct answers, gives students the opportunity to answer questions concerning some of the most important concepts, ideas and questions presented in each chapter, provides students with the opportunity to reflect on the different areas found in each chapter, and allows students to explore different web sites and how they complete different tasks. Start your Society review: Basics (MySocLab Series) Bringing a tutorial on sociology. It was surprisingly more balanced than I thought it would be for a liberal topical tutorial. For the most part, he wasn't too liberal. The writing style was also good and retained my interest. Very affordable and the most up to date. He doesn't just stick to famous names and their theories, but basically explores real current problems. I think it is important for every person to read a good sociology book or take a soc class; we all live in society after all! I learned a lot, however, you would think that a feminist wrote this book, not a man, and even I found that offensive as a woman. Read chapters 1, 2, 3, 4, 5, 7, 8, 11, 12This a worthy introduction to the text of sociology. There are a few issues with gender and gender design as well as some subject thinking, but I found it a good jumping-off point to discuss. Read for an introduction to sociology at DMACC I read the 15e edition and enjoyed most of it. I learned a lot and passed my class in college. :) I got this book for school. wasn't supposed to buy it, but I wanted to have it for future use/links. That's good information. That's good information. Information, verbose in some places, but easy to absorb information. A good basic overview of sociology. This book is awesome and I want to read about society's basic sociology textbook. Dense, like many tutorials, but great to read. This book was not bad for the textbook. I found it very readable and interesting. Behavior in people is always an interesting topic. I love this class! textbook for my sociology class this semester! It's a great textbook. A good reading for the introductory sociology course had to read a book for a course at school. A very interesting theme and easy to follow. He's interested in sociology can continue to read on this topic. For courses in introductory sociology, see sociology in the society's daily life: Basics uses a complete theoretical framework and a global perspective to offer students an accessible and appropriate introduction to sociology. John Macionis, author of the bestselling Introductory Sociology franchise for the past three decades, gives students the opportunity to see the world around them through sociological lenses, helping them better understand their own lives. Information, as well as attraction, Society: The basics will change the way readers see the world, and open the door to a new perspective and new opportunities. In addition to the widely updated data, the fourteenth edition offers attractive discussions of hot-button contemporary topics such as increased social media distribution, as well as extended coverage of race, class and gender. Also available with MySocLab® MySocLab for an introductory sociology course expands online learning to attract students and improve results. Media resources with assignments bring concepts to life, and offer students the opportunity to practice applying what they have learned. Please note: this version of MySocLab does not include eText. Society: Basics, the fourteenth edition is also available through REVEL™, an interactive learning environment that allows students to read, practice and learn in one continuous experience. Learn more. Content that helps students see sociology in everyday life UPDATED! The power of society figures provide evidence of how society shapes our basic life decisions. Located at the beginning of each chapter, they encourage students to question their belief in the importance of personal choice. These figures have been updated for the fourteenth edition to better help students understand the power of society to shape people's lives. Updated! Seeing sociology in your daily life essays show everyday life the relevance of sociology, explaining how the material in the chapter can empower students in their personal and professional lives. For the fourteenth edition, author John Macionis revised these essays to make them more comprehensive. New functions! The expansion of social media reflects the fact that, more than ever, modern social social revolves around computer technology that forms networks and social movements. Updated! The fourteenth edition has been revised to better focus on diversity and to better highlight aspects of social differences. The text offers an extended analysis of race, class and gender throughout the text, including a new scholarship. Other aspects of the differences that receive increased attention include both transgender and disability issues. The boxy features highlight specific issues of diversity, and national See Yourself maps show social models in terms of geography, emphasizing the differences between rural and urban and regional areas. Updated! The fourteenth edition contains the most recent data on income, wealth, poverty, employment and other important issues. Coverage of political events has also been brought to a date, including a mid-2015 U.S. Supreme Court decision that extends legal same-sex marriage nationwide. Educational structure and attractive design that contributes to the success of STUDENTS REVISED! The learning goals at the beginning of each main section guide students through reading the chapter. The goals of the training are repeated in the Making An Assessment summary at the end of each chapter. Updated! The Society for the Attraction of Photography and Art program has been substantially revised and updated throughout the fourteenth edition, with all the signatures written by the author to better involve students in the course. Also available with MySocLab® MySocLab for an introductory sociology course expands online learning to attract students and improve results. Media resources with assignments bring concepts to life, and offer students the opportunity to practice applying what they have learned. Please note: this version of MySocLab does not include eText. Writing Space provides everything you need to promote better writing, all in one place. It is the only place to create, track and evaluate written assignments, provide written resources, and share meaningful, personalized feedback with students, quickly and easily. Having automatically graded, by evaluating and creating your own assignments in Writing Space, allows you to determine your level of participation in evaluating your students' work. The automatically graded version allows you to assign a letter in larger classes without the burden of having the class all student work manually. And by integrating with Turnitin®, Writing Space can test students' work for inappropriate citation or plagiarism. Social Explorer personalizes key course (graphs, maps and other infographics) with data from specific locations, giving students the opportunity to learn how to they learn about the impact on them at the local level. They can view statistics and trends, such as unemployment and demographic shifts, for their city or county, and compare these data with other parts of the world. Students can also analyze maps at different points in time or compared to each other to easily determine how trends occur, grow and weaken geographically. Social Explorer activities link to the score in MySocLab.With Core Video Series in MySocLab, students engage, and are exposed to topics through several different sociological lenses. The Core Video Series contains six types of video for all 21 major subject areas of sociology. By reviewing ideas through different lenses, students are more engaged in content, improving their own critical thinking skills, and eventually learning to think like sociologists. Society: Basics, the fourteenth edition is also available through REVEL™, an interactive learning environment that allows students to read, practice and learn in one continuous experience. II. Chapter by Chapter Content Revisions Chapter 1. Sociology: Perspective, Theory and Method Updated The Power of Society Figure shows how race, school and age guide people's choice of marriage partners Highlights of the latest on same-sex marriage, including the 2015 U.S. Supreme Court ruling, and research on how college attendance reflects class, race and age. Update on the number of children born to women in the world; the number of countries with high, middle and low-income incomes; and the changing

proportion of minorities in major sports. New data on economic inequality, extramarital affairs and the proportion of the population that claims to be multiracial. Chapter 2. The culture of the Renewed Power Society figure contrasts with high- and low-income countries in popular support for access to abortion. Discussions on cultural values have been revised and expanded. An extended discussion on cultural differences focused on the terrorist violence in Paris. A new global map shows the percentage of foreign-born people in countries around the world, and the new Global Snapshot shows the use of English, Spanish and Chinese as the first and second languages worldwide. Updates on the income and wealth of Asian-American, Hispanic and African-American communities, as well as new data on the number of languages spoken as a measure of the country's cultural diversity, a reduction in the number of languages spoken around the world, a degree of global illiteracy, a model of immigration, a debate about official English, life goals for people entering college, the latest symbols used in textual languages, and a fraction of all web pages written in English, and an increasing number of immigrants coming to the United States. Chapter 3. Socialization: From infancy to old age The renewed strength of society figure shows that leadership using the media, documenting that people without high school school spend much more time watching TV than people with higher education. A new discussion of Osagi Obasog's research on how blind people perceive race. Updates on the share of people who claim to be multiracial, political orientation of large media, time spent watching TV and using smartphones, the connection between television and violence, the proportion of children in the world who work on income, and a growing share of the U.S. population over the age of sixty-five. Chapter 4. Social interaction in everyday life The updated strength of society figure shows how age guides the degree of networking through social media. Discussion of the reality of building addresses as films increase people's awareness of life problems with various forms of disability. Updates on the use of online sites by age in the United States; Expanding Facebook and Twitter around the world; The effects of smartphone technology on everyday life; and an extended discussion of the history of humor. Chapter 5. The group and organization Renewed Power Society figure shows how class affects organizational affiliation. McDonald's upgrades and global scale, increased use of the Internet worldwide, the social impact of Facebook's expansion as a global network, the number of political employees who won re-election in 2014, and a disproportionate share of leadership positions held by white men. Extended coverage is a constant loss of privacy in our social world. Chapter 6. Sexuality and Society Renewed Power Society figure tracks the trend towards same-sex marriage over time. A new discussion of epigenetic theory of sexual orientation. A new discussion of the high risk of suicide among transgender people. Renewals of laws governing marriage between siblings, a 2015 Supreme Court ruling legalizing same-sex marriage, the latest data on the proportion of high school students who report sexual intercourse, recent research on sexual attraction and sexual identity, the extent of rape and rape of acquaintances across the United States, and the size of lesbian, gay, bisexual and transgender (LGBT) communities. Chapter 7. The Rejected Renewed Power Society figure shows how race puts some categories of the U.S. population at a much higher risk of being jailed for drug offenses. Updated with the latest statistics on the extent of legal gambling throughout the United States; Increasing the legal use of medical marijuana; recent studies into the cost of imprisonment; the proportion of white-collar criminals who end up in prison; deaths in Corporate Crime; and the number of serious crimes recorded in 2013. A new analysis of the 2013 arrest patterns for personality crimes and property crimes by age, gender, race and ethnicity. New features to reduce the gender gap in crime and to increase the number of people incarcerated in the United States. Coverage of the number of police officers in the United States, the number of people in prison, and recent changes in the law on the death penalty. A new statistically based study of the use of the death penalty. Chapter 8. Social Stratification Updated The Power of Society figure shows how race and ethnicity establish the chances that a child in the United States will live in poverty. Numerous updates on social inequality in Russia, China and southern Africa, as well as the latest data on all indicators of economic inequality in the United States, including income and wealth, the economic assets of the richest families in the United States, and the educational achievements of various categories of the population. Coverage of the latest pay trends by Wall Street executives, as well as new data showing that the recent downturn has reduced average household wealth. New data show a racial disparity in home ownership, the chances of four years of higher education for people at different levels of the classes and the extent of poverty in the United States. The discussion of the American dream in the era of economic recession, as well as the growing social segregation faced by low-income families, has been updated. Data for 2013 on poverty, the number of working poor, changes in the minimum wage, rising income inequality and how poverty interacts with age, gender, race and ethnicity. New data on economic mobility, as well as the extent of homelessness. Chapter 9. The Global Stratification Updated Power society figure shows how a nation in which a person is born sets the odds of surviving before the age of five. Updates on the decline in infant mortality in the world; A garment factory operates in Bangladesh; the distribution of income and wealth and the number of poor people in the world; Average income around the world at all; The number and updated social profile of nations at different levels of development; The latest UN data on the quality of life in different regions of the world; and the latest data on global debt. The latest data on economic trends in different regions of the world and the widening economic gap between the highest and lowest income countries. Renewal of wealth and well-being in individual countries at each level of economic development. The discussion on the extent of slavery in the world has been updated. Chapter 10. Gender Stratification Renewed Power Society figure shows how gender shapes people's goals and ambitions. A new discussion of the first woman to pitch a winning game in the Little League World Series.Updates on life expectancy for U.S. women and men; The proportion of degrees received by each gender in different fields of study; women and U.S. workforce, share of full-time workers, and share in many sex-type sex types the proportion of large corporations with women in leadership positions; The number of small businesses owned by women; unemployment rate for women and men; and the latest data on income and wealth based on gender. The latest world rankings of countries in terms of gender equality. New data on the highest paid women and men in entertainment, as well as the proportion of the richest people in the country who are women. The latest statistics on women in decision-making positions, reflecting the 2014 elections; The latest figures on women in the armed forces; and an updated discussion on violence against women and men. The revised coverage of the crossing theory reflects the most recent income data. Chapter 11. The Race and Ethnicity Renewal Power Society figure shows how race and ethnicity influence voting preferences and demonstrate that Democratic candidates enjoy strong support among minority communities. Updated with a recent study by Osagie Obasogie on the meaning of race for people who have been blind since birth. Updates on the proportion and size of all racial and ethnic categories in the United States; the proportion of households where members speak a language that is not English at home; The share of interracial marriages in the United States; number of American Indians and Alaska Natives and tribal groups; and income and poverty, schooling and the average age for all major racial and ethnic groups in the United States. A new study using the scale of social distances shows a long-term increase in tolerance among college students. A new discussion of controversial police violence against African-Americans, including the 2014 killing of Michael Brown in Ferguson, Missouri. A new discussion of trends, including a growing proportion of American Indians who claim to have mixed racial backgrounds, and a growing proportion of African Americans who are in the middle class. The Economy and Politics Renewed Power Society figure demonstrates how race and ethnicity guide the type of work people do. Update on the share of economic production in the private and public sectors of the United States and elsewhere; The share of the U.S. population based on race and ethnicity in the workforce; The proportion of women and men self-employed; and the share of workers in trade unions, as well as recent political disputes over the power of public service unions. An updated discussion of the debate on right-to-work laws and an updated National Map showing which states have and have not enacted such laws. The revised discussion of unemployment highlights the growing problem of increased unemployment with an updated discussion of the recovery of unemployment. Update Number of people employed in government; The cost of operating the government; voter turnout and voter preferences related to race, ethnicity and gender in 2012 2014 election; new data on the decline of political freedom in the world; the latest data on the extent of terrorism and the victims of such a conflict; recent nuclear disarmament negotiations, recent changes in the proliferation of nuclear weapons and a change in support for the Strategic Defence Initiative (SDI) as a peacekeeping policy; and recent data on global and U.S. military spending, as well as empowerment for women in the U.S. military. A new discussion of the growing importance of income inequality as an issue in the 2016 presidential campaign, as well as an updated discussion of the importance of swing states and how the Electoral College can prevent voter turnout in most states. Chapter 13. Family and Religion Renewed Power society figure shows how religious affiliation or lack thereof is associated with traditional or progressive family values. The discussion on the importance of grandparents in child-building, the experience of loneliness and families in later life, and the tendency to move to relatives as a strategy to reduce living expenses during the current economic downturn has been updated. An updated National Map shows the divorce rate for states across the country. Update on the number of households and families in the United States, the proportion of young women in low-income countries, marrying before the age of eighteen; The cost of raising a child for parents at different levels of the class; the proportion of young people in the United States who are latchkey children; raising the average age of the first marriage; Cases of child support payments by court order and the frequency of non-payment; domestic violence against women as well as children. Data from 2015 shows the number of countries that allow same-sex marriage and the recent policy changes in that country that led to a 2015 Supreme Court decision guaranteeing the right to same-sex marriage. New data showing a growing proportion of U.S. adults living alone; Childcare for working mothers with young children; and the relative frequency of different types of interracial marriages. Updated data showing the degree of religious faith in the United States, as well as the proportion of people who prefer different denominations. An updated discussion of the trend from religious affiliation among young people and more discussion of Islam in the United States. Extended discussion of the growing proportion of seminary students who are women, as well as discussions about secularization. The discussion of the use of electronic media to exchange religious ideas has been updated. Chapter 14. Education, Health and Medicine Renewed Strength society figure shows the importance of race and ethnicity in shaping the opportunity to attend college. New global data relative performance of American children, comparing them with children in Japan and other countries. The new data determine the proportion of adults in the U.S., U.S., high school and college, how income affects access to higher education, and how higher education is associated with earnings at the end. New statistics on the number of colleges and universities in the United States, as well as the financial cost of attending them. The latest data guide is a discussion of community colleges in the United States and the various student corps they are enrolled in. Coverage of recent trends in dropout rates from high school, performance on the SAT, high school grade inflation, and the spread of charter and magnetic schools. Coverage of a new report by the National Center for Education Statistics that documents modest improvements in U.S. public schools over the past two decades. The latest data on gender imbalances in American colleges and college campuses. The discussion of prejudice against people based on body weight has been updated. Updated information on global health models, including improvements in young children, cigarette smoking, smoke-free tobacco use and the incidence of tobacco-related diseases. A new discussion of how gender-related patterns associated with eating disorders, recent patterns related to AIDS and other sexually transmitted diseases, the link between poor living conditions and lack of health care demonstrated by the recent Ebola crisis, and the ongoing debate over euthanasia. Covering how the government currently pays for most health care services in the United States, and how people pay the rest of their medical bills. Chapter 15. The Renewed Power of Society in Population, Urbanization and the Environment shows that concern for environmental issues, while in high-income countries than in low-income countries, remains low in the United States. The opening of the new chapter describes the debate over global warming and changing weather patterns. The most recent data on the U.S. population, as well as birth and death rates in the United States and around the world, new data on infant mortality and life expectancy, new global demographic projections and updated coverage of urbanization trends. The latest data on the racial and ethnic population of the country's largest cities. Expanding the coverage of social life in rural areas in the new section. New discussions highlight urbanization in low-income regions of the world, changes in water consumption and the shrinking size of the planet's rainforests. Chapter 16. Social Change: Modern and postmodern societies Renewed the power of society figure shows countries in which people are more or less inclined to participate in public demonstrations. Coverage of recent social movements, such as The Black Lives Matter political movement that emerged in response to police violence against African-American men and a campaign to remove the Confederate flag from the South Carolina Capitol building. Life expectancy updates other demographic changes in American society. New comparative data show a century of change between 1910 and 2010. The updated national map shows the degree of stability of living throughout the United States. An updated discussion of trends that show improvements in social life in the United States, as well as trends that are alarming. 1. Sociology: Perspective, Theory and Method2. Culture3.
