Student Book and Teacher's Guide (PDF) Student Book (ePub) We believe that everyone should have access to the basic resources they need to achieve their education. In a pursuit of making education accessible, Siyavula has released books covering maths and science subjects from grades 4-12. These are high-quality, open educational resources that are consistent with the curriculum. By creating an educational resource, we believe in the collective strength and diverse insights gained from a large group of volunteers and participants from different backgrounds, from southern Africa and around the world.
