

TILE

Dozens of countries
Hundreds of locations
Thousands of volunteers
and growing.

Welcome to **TILE.**

If you're a **typical student** from

The Bronx

Sana'a

Portland

Belgrade

Bhubaneswar

you have **no way** to engage in
live conversations with your idols.

No way to hear their stories, ask burning questions,
understand their perspectives, and learn from their
experiences.

Conversations with **innovators, leaders,
and entrepreneurs** are inaccessible for the students
that need them the most. They're too **expensive**,
too **selective**, or simply **unsuitable** for youth.

But what if every student had access to **free, live,
participatory conversations** with the luminaries
they look up to?

TILE makes conversations with leaders, innovators, and entrepreneurs **accessible to everyone.**

By empowering passionate students around the world, **we organize free conversation series** that bring together local teens and a notable guest for monthly, hour-long conversations.

Guests at TILE events have included everyone from **CEOs** of international companies to world-renowned **social justice advocates**, cutting-edge startup **founders**, celebrated **authors**, and even an **Olympic Gold Medalist**. Furthermore, part of every event is dedicated to discussing **ethical and thoughtful decisionmaking.**

The best way to create a generation of creators, doers, and thinkers: give students **access to the leading creators, doers, and thinkers of today.**

Learn more at **tile.org.**
