Premium Interior & Accommodation Solutions

NSO provides a full scope of interior & accommodation services and solutions for any project. Our focus is quality, timeliness, and customer satisfaction. We enjoy challenging projects and providing creative and innovative solutions that exceed expectations. Our dynamic team of designers, engineers, outfitters, and carpenters work closely together to ensure a streamlined customer service experience. We offer services for all accommodation areas including public and cabin areas, as well as catering areas, and technical spaces. No job is too big or too small!

Interior & Accommodation Services

- ✓ Design
- ✓ Engineering
- ✓ Project management
- ✓ Site supervision & installation
- ✓ Turnkey
- ✓ After-sales service

After sales service

- Spare parts
- Equipment
- Refurbishment
- Warranty
- Maintenance

Turnkey

- Design to delivery
- Streamlined service
- Supplier coordination
- Material supply
- Delivery & handover

Site supervision & installation

- Onsite coordination
- Sequence control
- Carpentry services
- Outfitting
- Mechanical completion

Project management

- Project planning
- Project execution
- Interface coordination
- Discipline coordination
- Quality management

Engineering

- FEED studies
- Detailed engineering
- Production Engineering
- Material take-off
- 3D modeling

Design

- Concept design
- Architectural design
- Interior design
- Basic design
- 3D renderings

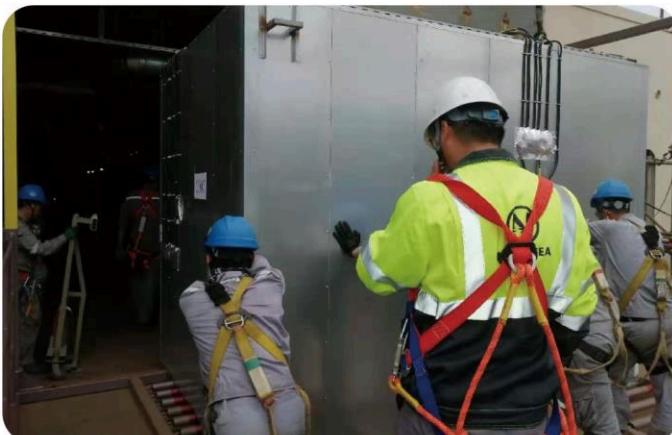

New build, Conversion, Refurbishment, Refit

We offer a variety of services for every industry that we serve. Since every project is unique, it's our job to evaluate and provide solutions that are best for the project. Factors such as rules & standards, cost, time, weight, and working environment will determine the solutions we propose.

Construction services:

- ✓ "Steel to steel" outfitting
- ✓ New build, conversion, refurbishment, refit
- ✓ Light weight living quarters
- ✓ Conventional "stick built" cabins
- ✓ Cabin units
- ✓ Container modules

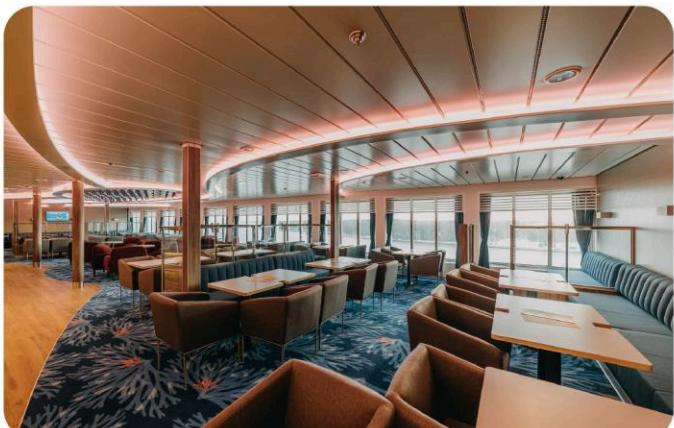

Offshore, Marine, Cruise, Ferry, Yacht

NSO provides solutions for any interior space on any project. We've had the privilege of performing our services for offshore, marine, cruise, ferry, hospital ship, and yacht projects. We fully understand the unique complexities and requirements for each of these sectors.

Areas:

- ✓ Lounges, gathering areas, clubs, casinos
- ✓ Restaurants, bars, pubs, buffet areas, cafés
- ✓ Shopping areas, duty free, convenience shops
- ✓ Laundry, galley & servery areas, public toilets
- ✓ Saunas, spas, gyms, snow caves
- ✓ Passenger & crew cabins, outdeck areas

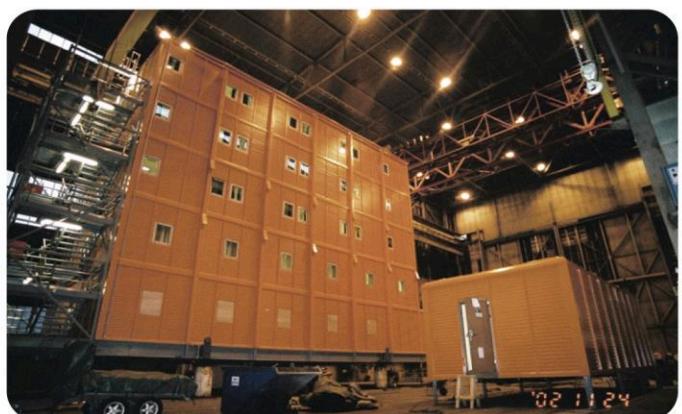

Flexmodul

Engineered for weight-sensitive offshore conditions, these lightweight modules are deployed across accommodation units, control rooms, and technical facilities, enabling rapid platform expansion with minimal impact on structural integrity.

Front-End Engineering Design (FEED) Services

Our FEED services provide the strategic foundation for successful FLEXMODUL deployments and broader marine infrastructure projects. We translate conceptual designs into fully scoped, risk-buffered engineering packages that support confident investment decisions and seamless EPC execution. By delivering precise technical specifications, cost estimates, and phased schedules, we help clients minimize uncertainty and optimize resource allocation from day one.
