

Astan®

Astaxanthin For the Natural Beauty of Skin

Astaxanthin Complex for Skin Health

Beautiful Skin from Within

AstaMAZ NZ LTD

Astan® is a premium New Zealand brand under AstaMAZ, specializing in clinically researched formulations of natural astaxanthin combined with marine collagen peptides and vitamin C. Sourced from sustainable *Haematococcus pluvialis* microalgae using supercritical CO2 extraction, our Astan® NACP-585 is a cold-water-dispersible powder that delivers superior bioavailability without solvents.

More Than Antioxidants— Targeted Health Benefits:

The synergistic trio in Astan®—astaxanthin, collagen peptides, and vitamin C —delivers comprehensive skin health. Key benefits include :

- ✓ **Deep Protection:** Neutralizes free radicals from UV, pollution, and metabolism, reducing damage across epidermis, dermis, and hypodermis.
- ✓ **Anti-Aging and Elasticity:** Improves collagen integrity, reduces wrinkles, fine lines, and roughness for firmer, more youthful skin.
- ✓ **Hydration and Repair:** Enhances moisture retention, supports barrier function, and accelerates recovery from environmental stressors.
- ✓ **Radiance and Even Tone:** Boosts glow, minimizes age spots, and promotes even complexion through anti-inflammatory effects.

Eco-friendly, Organic high-content astaxanthin source for your products value , compliant with global standards for clean-label products.

Available in powder form for easy integration into capsules, beverages, or gummies.

Astan® astaxanthin formula is positioned as a high-end raw material for **skincare-from-within applications**, emphasizing clinical efficacy through human trials. Patented blends and published papers validate claims for **wrinkle reduction** and **UV protection**.

We provide flexible product lines, including **dispersible powders** and **blends**, backed by science for innovative product development.

Our formulations enable science-backed claims for your skincare products:
