Reading in Japanese is simple. You don't know the Japanese word, you click! And then you understand the meaning of the word translated into your native language. You no longer need to copy the word into another dictionary. Once you've got a list of articles uploaded to the screen, you don't need to connect to the internet to read it anymore. You can read it anywhere, anytime, without the internet. Even offline, you can still click to understand the word. For people who are learning Japanese for a JLPT test? We have a special feature for you. You can easily highlight words in the JLPT N1, N2, N3, N4, N5. You can save any word to find out later. We analyze and segment each sentence in a Japanese article by an open source library, break down its words and translate each word into its own language. Now reading in Japanese is much more fun and easier than ever. We already support 11 languages and are always open to more! English, Hindi, Indonesian, Thai, Vietnamese, Burmese, Chinese, Arabic, Russian, Portuguese, Spanish. More Tobira (Gateway for Advanced Japanese Learning through Content and Multimedia) Tobira will be an excellent spine tutorial for a serious third-year college level in Japanese. The authors expect the students to complete one of several widely used series (Genki, Yookoso, or Nakama) in preparation for work at this level. I would imagine that many instructors would like to submit some materials for bridge ones in Tobira. In my estimation, students who master Tobir's material will be tested up to B2 on a common European language reference scale; There is a shot at S2 /R2 on the Scale of the Interagency Language Roundtable; and do very well at the N3 level of the new Japanese language test profession. More importantly, they will have a solid basis for further study using unverified materials.
