

Seaside Savory

A waterfront restaurant on Jekyll Island with a comforting aquatic environment.

Zachry's is a hidden treasure in a small neighborhood on Jekyll Island that has stayed around since 1987. You can watch boats go by and breathe in the salty air on their outdoor deck. Sitting by the ocean while you're eating can be a soothing experience. Stop by after a day on the water and pull your boat up to the restaurant's docks! It's the perfect blend of outdoor beachy ambiance paired with refreshingly delicious menu options.

Zachry's prices are reasonable, and their main focus is preparing fresh seafood. The grilled, steamed or fried shrimp with hush puppies and a choice of two sides is a perfect meal after a day on the water. Crab cakes with fresh blue crab served with remoulade sauce will melt in your mouth. One of their specialty items are the fried oysters, which are lightly breaded and fried to a golden brown. If you aren't a seafood lover, their menu offers savory cheeseburgers and fresh salads as well. Zachry's is the perfect place to visit on your next trip to Jekyll Island.

Zachry's is at 1st Harbor Rd, Jekyll Island, GA 31527.
