Marvel contest of champions crystal

Summoners! Wondering when the recently released champions will hit the 5 and 6 Recommended Crystals? Here's all the information on the upcoming Crystal Pools featured for the Marvel Champions Competition. Crystals are intra-game items that can be used to generate resources in the game, such as Gold, Units, Champions (although they are notorious for giving Level 1 and 2 overlapping champions), Battle Chips and other resources. Crystals can also be built with crystal fragments: How many shards are required on the crystal are listed below. However, Crystal Shard crystals give fewer points towards Alliance events than regular crystals. The contents of the show list of crystals Main Crystals Other Crystals Champion Crystals How these crystals are available only when a certain champion is being fought for in the Arena, it is only natural that not every crystal in existence is down below. All these crystals are purchased with units. These crystals may soon appear on the Infobox Champion template on their Champion pages.
