Thanos can't beat him with infinity exploits only. He did as what, hit Hulk, two Thor shot, a bined shot, tanked a shot of Mjolnir to the neck of Morals Off Thor, tanked several cries of Black Bolt while having only bloodied nose, no sale of two flashes of Morals Off Thor ... Apocalypse is caught in the ricochet fire and is incinerated accidentally. Also no, Darkside doesn't just win because I like it, in fact I think Thanos is a much better character. But the truth is, the vast majority of Thanos's high-level feats were achieved using infinite gauntlet, cosmic cube, universe heart, other external aid/energy source or at least a decent amount of preparation time. Darkside on the other hand has a lot of soul-free, anti-life, or other buffs, hell, it barely uses them in comics at all. That's why darkside featwise. Not to mention, Darkside has omega effect, which gives it the advantage since the rest of their powers are basically the same. 3 years ago Comments: 2User Lists: 114 Comments: 0User Lists: 0 Darkside defeats Thanos after an extremely long and difficult fight. Not to mention, Darkside has omega effect, which gives it the advantage since the rest of their powers is essentially essentially is wrong. Thanos used Cosmic Cube and the Infinity Glove in just two stories (one story for each). And no, all the exploits he has had with the preparation are based on preparation to develop strategies, not prepare to amputate, give himself some kind of extra equipment and jada jada. Thanos is not like Doom and Iron-man. Most of the feats where he showed power were either preformed univ preparation, or the preparation was there only to make some sort of strategy. All feats of strength, reflexes, durability, fields of strength, material manipulation, energy projection and so on are all legitimate.3 years Comments: 0User Lists: 0Apocalypse should not be here its between thanos and darkseid, infinity Thanos is not a different version of Thanos, I guess it's just his exploits in history, but that doesn't mean it won't have the same durability or capabilities it normally has, which would mean it's above darkseid3 years comments: 0User Lists: 0Hey someone knows where to find a Thanos?3 years Compliance Thread Page 2 Comments: 0User Lists: 1 Thanos.3 years Comments: 0User Lists: 0 Pu Purple reviews Apocalypse3 years Notice : 0User Lists: 0 Darkseid3 years Opinion: 2User Lists: 1Been done and Darkseid.3 years ago Reviews: 0User Lists: 0Usen done and Thanos.3 years ago Reviews: 0User Lists: 0Been done and The Mad Titan3 years ago Reviews: 0User Lists: 0ThanoswwwBut, yes IMO... No wonder he has no respect. Apocalypse has its true potential so easily be at the level of the other two. As for this fight, the exploits suggest Thanos, but depending on the version Darkseid, he might very well take it too. 50/50 between those two. Yes... Apocalypse was noted by Thanos for being a very powerful entity (along with Onslaught and a few others) that would require constant monitoring. Apoc is mostly written as a jobber because its purpose is to disse with the weak..... and let natural selection take its course without direct involvement (i.e. jobber). More times than not. Apoc says he is above physical confrontation, but is assured that he is up to any challenge. On the subject - Thanos fwtl 3 years ago Reviews: 0User Lists: 0 Darkseid for victory.
