CUSTOM PROPOSAL FEES

At Beau & Co we place a high value on time, yours and ours. It is for this reason that we do not provide free quotes.

The proposal fees are designed to ensure due diligence is performed and extra care is taken to consider all aspects of your unique project requirements. If we can take the time to consider your requirements, the less likely you will end up with 'bill shock' during the build.

Exact fees are dependent on project size/requirements and generally range between \$330 and \$2850. If you choose to proceed with Beau & Co the fee is deducted from your contract price.

Not ready to proceed with a comprehensive proposal? No worries, we are more than happy to provide you with a price guide for your project over the phone based on the details you provide.
