

HERE TO EMPOWER PEOPLE TO
EMBRACE THEIR CREATIVE SIDE
IN LIFE & BUSINESS

Bring more CREATIVITY to your COMPANY + EVENTS

Who we are

Diana & Sam

We set up Creative Jungle Company to help people explore their creative side and experience its many benefits. Our creative kits bring creativity to your home or company, the podcast series explores creativity in life & business and we share learnings on creativity and thinking. Everyone is creative and deserves to explore its magic!

We are also the brains behind M.Y.O., London's favourite arts & crafts studio for grown ups, where we've helped 10,000s of adults get creative in our studio, online, in companies and at events.

Creative kits

Whether for your employees or gifting to clients, our creative kits are a great way to create a fun and memorable experience.

They are the perfect addition to your employee wellbeing package, to help build relationships, connect teams or to supplement your virtual event.

All kits come with an online pre-recorded class, so that you can create easily anytime. Enjoy creative support from our team, always.

We can also run a live 1-2.5 hr class along with the kits, so you can get creative together in a virtual class setting, for an additional fee*. It's fun!
