[Verse 1]

Spent half my life looking for you
Just to find you here on a Friday night in the city
Ain't no way I could ignore you, oh
But if I feed the beast it will wake up to come out and
get me

[Pre-Chorus]

Out here in the wild
We're just strangers in the night
I've been looking for you
To bring me back to life
So come a little bit closer
And I promise I won't bite
Until you get me home
And bring out the beast inside

[Chorus]

Make my heart beat, beat

Come on and feed the beast
Make my heart beat, beat
Come on and feed the beast
Make my heart beat, oh oh
Come on and feed the beast
Cause I ain't gettin' no sleep, no sleep
So come on and feed the beast

[Verse 2]

I forget myself just to know you
Underneath all of the shining lights of the city
Ain't no other way to show you
So baby feed the beast, oh it's just **dying** to come out
and get me

[Pre-Chorus]

Out here in the wild
We're just strangers in the night
I've been looking for you
To bring me back to life
So come a little bit closer
And I promise I won't bite
Until you get me home
And bring out the beast inside

[Chorus]

Make my heart beat, beat
Come on and feed the beast
Make my heart beat, beat
Come on and feed the beast
Make my heart beat, oh oh
Come on and feed the beast
Cause I ain't gettin' no sleep, no sleep
So come on and feed the beast

Come on and feed the beast
Come on and feed the beast
Make my heart beat, oh oh
Come on and feed the beast
Cause I ain't gettin' no sleep, no sleep
So come on and feed the beast

[Bridge]

Dancing with the fire
Standing on the edge
Oh we get a little tied up
In each other's heads, other's heads

[Chorus]

Make my heart beat, come on and feed the beast

Come on and feed the beast
Make my heart beat, come on and feed the beast
Cause I ain't gettin' no sleep, no sleep
Come on and feed the beast
