

A R I Z O N A - Running

[Spicy Filters from BeWellPlayed.com](http://BeWellPlayed.com)

[Verse 1]

Oh we'd rather live a lie, live a lie
Then face all the heartache
So we live in the warm summer nights
And sleep through the dark days
Does it even really matter
Don't even want to get better
Cause it feels like we're fighting for nothing, nothing

So we keep on

[Chorus]

Running, running, running, oh
We're always hunting something, oh
We take all the highs, and leave all the lows behind
And keep on
Running, running, running
Oh
Oh

[Break]

[Verse 2]

We're doing alright, we'll be fine

Everything's okay

That's what we tell ourselves all the time

We can't make the pain go away

We can't slow down, we can't stop now, no we won't
turn around, oh

Even when it feels like we're fighting for nothing,
nothing

Yeah, we keep on

[Chorus]

Running, running, running, oh

We're always hunting something, oh

We take all the highs, and leave all the lows behind

And keep on

Running, running, running

Oh

Oh

[Break]

[Bridge]

Running away from ourselves

We never get too far

We can't stay

Can't stay still

But we don't want to do this anymore

Found a way

Just let go

Turn around

And just get going

And after all yeah we're fighting for something,
something

So we keep on

[Chorus]

Running, running, running, oh

We're always hunting something, oh

We take all the highs, and leave all the lows behind

And keep on

Running, running, running

Oh

Oh

It when it feels like you're fighting for nothing you
keep on
