

# Vampire Weekend - Stranger

[Spicy Filters from BeWellPlayed.com](http://BeWellPlayed.com)

## [Chorus]

I-I-I, things have never been stranger  
I-I-I, things are gonna stay strange  
I-I-I, I remember life as a stranger  
I-I-I, but things change

## [Verse 1]

Another night indoors, another sign of life-ife  
Wobbling up through the floor  
You and Kidada  
Ooh, I might get low, low, low  
But now I'm too **high** to know  
The sound of you and your sister  
I couldn't face these days alone  
You got the right light, candles burning  
We don't need the moon anymore  
I used to look for an answer  
I used to knock on every door  
But you got the wave on, music playing

Don't need to look anymore

**[Chorus]**

I-I-I, things have never been stranger

I-I-I, things are gonna stay strange

I-I-I, I remember life as a stranger

I-I-I, but things change

**[Verse 2]**

You and Kidada

Ooh, the lights get low, low, low

And I got nowhere to go

I used to freeze on the dance floor

I watched the icebergs from the shore

But you got the heat on, kettle screaming

Don't need to freeze anymore

**[Chorus]**

I-I-I, things have never been stranger

I-I-I, things are gonna stay strange

I-I-I, I remember life as a stranger

I-I-I, but things change

**[Bridge]**

Who knows the reason that kindness lost its hold?

Those better angels confined to minor roles  
I left the wilding, wilding, wilding days of old  
Your house is warmer the wilderness is cold

**[Chorus]**

Things have never been stranger  
Things are gonna stay strange  
I-I-I, I remember life as a stranger  
I-I-I, but things change  
Things have never been stranger  
Things are gonna stay strange  
I remember life as a stranger  
I-I-I, but things change

**[Outro]**

Ooh  
Things have never been stranger (Ooh)  
Things are gonna stay strange (Ooh)  
I remember life as a stranger  
I-I-I
