## [Intro]

Get on down, uh

## [Verse 1]

Whatcha here for? Now, tell me  
Say, whatcha here for? Now, tell me  
Say, whatcha here for? Nah  
What's up? Uh, I hear you talkin' (But)  
You saying nothing (Ha)  
Tell me, whats the message?  
What's up? Uh, I see you standing  
With your back on the brick wall  
But I know you wanna lift off  
Well, here's your chance  
I'm likely the reason you might be  
Moving on the right league  
Sweeter than icy

## [Verse 2]

Now it must be the season to get things clear  
'Cause ain't no wallflowers bloomin' round here  
So get uprooted while you suit it and boot it  
And if you decide to toot it, I will catch it like chair  
Throw it in the air like leer  
Receive real caution, nope, you ain't got fear  
The sweetest melodies are in your ear  
Will **lead** you right into the land of funk  
Good God, it's milk and honey all around  
Caramel cream and chocolate brown  
Found my way up heavens **high**  
And I don't really think I can come back down

### **[Pre-Chorus]**

Now, what's up? What's up?  
Cook it up, you a good cook, good cook  
Pull it out the oven, too hot, drop that  
Jump back on your good foot, good foot  
Where the hook at?

### **[Chorus]**

I don't know what you came to do  
(I don't know what you came here for)  
But I came here to get busy (1, 2, 3, 4, say)  
I don't know what you came to do

(I really don't understand)  
But I came here to get down, down, down  
I came to get down, down, down  
(One more time, say)  
I don't know what you came to do  
(I just really don't know)  
But I came here to get busy  
(That's exactly what I came here for)  
I don't know what you came to do  
(I really don't know)  
But I came here to get down, down, down  
I came to get down, down, down  
(Let's take it down, say, say)

### **[Verse 3]**

I just walked up in the door  
(I just walked up in this thing looking good)  
You were movin' on the floor  
(I swear you was moving like a concrete wall, baby)  
Hop up on your good foot  
(Act like your left foot broken or something now)  
Whatchu playin' for? (1, 2, 3, 4, say)

### **[Chorus]**

Say, what's up? What's up?

Cook it up, you a good cook, good cook  
Pull it out the oven, too hot, drop that  
Jump back on your good foot, good foot  
Bring it back now  
What's up? What's up?  
Cook it up, you a good cook, good cook  
Pull it out the oven, too hot, drop that  
Jump back on your good foot, good foot

**[Post-Chorus]**

On ya good foot  
On ya good foot  
Get on the good foot  
On ya good foot  
On the good foot, woo  
Get on the good foot
