## INTERNATIONAL FREIGHT

### AIR FREIGHT

One of the fastest ways to ship freight is by opting for air freight. World Options provides air freight services to meet the needs of businesses who require a fast, reliable and competitive air freight service. We provide you rates from multiple leading carriers for you to choose from. After booking, your goods are transported first to the airport where the cargo is loaded onto the plane then flown to its destination airport where it is shipped to the final destination.

### SEA FREIGHT

Sea freight is an ideal way to ship a large quantity of goods in one go to international destinations across the globe. Your freight will first be transported by road to port and then via ship from port to port. It can take several weeks or even months for sea freight to reach its destination, but if the shipment is of a large quantity and is not time sensitive this can be the perfect choice which will save your businesses a tonne of money.

World Options' partner carriers provide a wide variety of regular sea freight choices to ensure your shipments get through customs and ports with full tracking of goods, reaching its final international destination with minimum hassle.

## DOMESTIC FREIGHT

### LTL - LESS THAN TRUCKLOAD

For the times you need to send Less Than Truckload shipments to a location in the US, Mexico or Canada we can help. Finding solutions to help transport your goods by road is what we do best.

We help customers speed up the slow manual process of shipping by providing online software that allows them to book LTL freight shipments fast. Our systems are easy to use, just provide the details of your shipment and then view and compare rates from LTL carriers. Book the shipment and your goods will be collected and delivered to its destination.

Enjoy the benefit of having a dedicated account manager to assist you if needed.

### FULL TRUCK LOAD

If your business has larger consignments which require Full Truckload freight shipments by road to virtually anywhere in the US, Mexico or Canada, we have the right solutions to help get your goods to its destination safely and within the time it is required. Our partner carriers use cutting-edge shipping analytics and monitoring technology to ensure the safe delivery of Full Truck loads when booked through World Options.
