Microsoft toolkit failed to install

Microsoft 365 is a subscription service that provides Office 2019 desktop applications (including Word, Excel, and PowerPoint) along with Office Online web applications. With a Microsoft 365 subscription, Microsoft regularly updates your software. Learn how to buy and install Microsoft 365. The instructions in this article apply to Microsoft 365 Home on Windows 10 devices. Microsoft offers several subscription levels for Microsoft 365. Three levels are aimed at home users: Microsoft 365 Family: Up to six users can share this subscription. Each user can install Office applications on all of their devices and have access to 1 TB of OneDrive cloud storage. Microsoft 365 Personal: This subscription is for one user, although you can install Office apps on all your devices. You also have access to 1 TB of OneDrive cloud storage. Office Home & Student 2019: This is a one-time purchase of Office and includes Word, Excel, and PowerPoint. Office apps can only be installed on one PC or Mac, and the version doesn't come with any OneDrive cloud storage. Sign in to your Microsoft account or sign up for a free Microsoft account if you don't have one. Sign in lets you sign in to Microsoft 365 Online apps, access OneDrive cloud storage, and access your Outlook.com your email address. Buying a Microsoft 365 subscription involves choosing the version of Office you want and providing your billing information. Open the web browser and go Office.com. Sign in to your Microsoft account. After you sign in, the Office portal opens where you'll access Office Online applications and manage your Office subscription. Choose Buy Office. Select Buy now for the Office subscription you want if you want to pay the annual subscription fee. Or choose Or buy for \$9.99 per month if you want to pay a monthly subscription fee. Review the information in your Shopping Cart and choose Pay. Select the type of payment. Choose a credit or debit card, PayPal, or bank account. Enter payment details. Select Save. Select Order. Your order processed and you will receive a receipt by email for the transaction. After you buy a Microsoft 365 subscription, install Office on your PC. Use the computer where you want to install Office. Go to the Microsoft 365 portal page and sign in to your Microsoft account. Choose Install Office. On the Microsoft 365 Home website, choose Install Office. On the Home screen that downloads and installs Microsoft 365, choose Install. Depending on the web browser you use, reminders to run or save downloaded files may appear. Select Run. Office prepares everything, and then installs Office applications. When the installation is over, Office can prompt you to enter an email or phone number to get a download link for apps for mobile devices. After installing Office, activate your subscription. To activate Office: Open one of the Office applications, for From. Enter your Microsoft email address and password. On the Accept license agreement screen, select Accept. Office applications open and you're ready to create Office documents and spreadsheets. You can install your Office subscription on as many devices as you want. You can sign in to Office simultaneously on five devices. To install Office on another PC, use the computer where you want to install Office and sign in to your Microsoft account. On the Office Portal page, choose Install Office. To install Office on a mobile device, use the smartphone or tablet for which you want to install Office. Then go to Google Play, Apple Store, or Windows Store and download the app. If other members of your family use Microsoft 365, they don't have to purchase a subscription. You can share your Microsoft 365 Family subscription with five others. When you share a Microsoft 365 subscription, everyone has access to: Apps: The latest version of the Office app for PCs, Macs, tablets, and smartphones. Cloud storage: 1 TB of storage on OneDrive.Skype calls: Mobile and land phone calls, limited to 60 minutes per month. Outlook email: 50 GB of email storage. To share a Microsoft 365 Home subscription: Sign in with a Microsoft account that you used to set up Microsoft 365. On the Office Portal page, choose Install Office. Select the Share tab. On the Share Office window, choose one of two: Email invitation: Send a link in email. Invite via link: Create a link that you can copy and provide to that person in email, text message, or otherwise. When your family member receives a link, they'll use the link to install Office on their PC.
