

Our Capabilities

Palmetto Pipe & Fab provides reliable welding, fabrication, machining, and industrial support services for plants, manufacturing facilities, municipalities, and commercial operations. We deliver high-quality workmanship both in-house and on-site, helping maintenance teams and operations personnel keep equipment running safely and efficiently.

Welding & Fabrication

We perform MIG, TIG, Stick, and specialty welding on carbon steel, stainless, aluminum, and various alloys. Our shop produces custom components, repairs, brackets, guards, supports, frames, and structural assemblies built to withstand industrial use.

Pipe Welding & System Modifications

We handle carbon steel, stainless, and alloy piping for process lines, utilities, and equipment connections. Services include pipe repairs, reroutes, tie-ins, replacements, and safe, code-compliant installation.

Structural Steel

We fabricate and install structural components including frames, supports, platforms, reinforcements, and custom assemblies. Our work meets industrial standards and is built for strength, accuracy, and long-term reliability.

Machining

Our machining capability supports fabrication, repair, and modification needs. We provide precision cutting, drilling, milling, and fitting to ensure components meet exact specifications.

Maintenance Support for Plant Personnel

We work directly alongside maintenance teams to assist with welding, fabrication, repairs, and system modifications. Whether during daily operations, outages, or breakdowns, we provide dependable support that helps reduce downtime and keep production moving.

In-House & On-Site Services

We offer flexible service options based on your operational needs. **In-house:** Controlled shop fabrication, machining, custom builds, and component repair. **On-site:** Field welding, equipment repair, pipe and structural modifications, shutdown support, and rapid-response service.

Industries Served

- Manufacturing
- Chemical & Petrochemical
- Food & Beverage
- Power Generation
- Oil & Gas
- Construction and Infrastructure
- Pharmaceuticals
- Water & Wastewater
- Municipal & Government
- Commercial & Industrial Facilities

NAICS Codes

- **332312 – Fabricated Structural Metal Manufacturing**
- **332322 – Sheet Metal Work Manufacturing**
- **332710 – Machine Shops**
- **332811 – Metal Heat Treating (if you ever add specialty welding/heat-affected work)**
- **332999 – Miscellaneous Fabricated Metal Manufacturing**
- **238190 – Other Foundation, Structure, and Building Exterior Contractors**

- **238290 – Other Building Equipment Contractors**
- **238390 – Other Building Finishing Contractors**
- **238990 – All Other Specialty Trade Contractors**
- **811310 – Commercial & Industrial Machinery Repair & Maintenance**

Why Clients Choose Us

- Reliable, high-quality workmanship
- Fast response for urgent repairs
- Strong communication and dependable service
- Flexible in-house and on-site capability
- Experience working directly with plant maintenance teams
- Custom solutions built for long-term industrial use
- Safe work practices and attention to detail
