Notes [edit ] While armoring light and shoes of light may afford the highest defence and evasion possible, if they both possess a +Resistance and +Evade Magic (high), the Resistance effect will dominate the evasion effect, leave a character with less of a bonus. The shoes accessories can be replaced for those from the Monad Depths or Messiah can be farmed again for more armor. The Resistance magic effect provided by one variant of weapon of light not protected from light and darkness game.
