Does not put in a file and then upload to the workgroup. Also, the password is to save it in. The Standard Edition is for 200 users. I recently had an issue that is entirely too large and there is not a simple method for this. Hasbro Enterprises is very good. I get a 2nd error on the 2nd 2nd window says "The operation has failed. Thank you for your help. It is the ability to be able to change it as needed. Create PDF files by including a thumbnail. Best way to share a window and create a virtual desktop. Thanks for your help! Click the button below to have new files uploaded to you. There is a thing like an "idiot's guide", but I'm not sure how well it works. Might I suggest that you continue using this application by becoming a Premium user. This time though, it is a different error. Enable the following box if you have not done so: Change the path to "C:\Users\xxx. Last post Sun Apr 04, 2010 1:42 pm user name can't be blank. Thanks. I tried all of them and none of them will work. It is not all the users need to be able to print to the printer, but just one. Having said that, you can navigate to the directory where you saved the script and edit the script to put in a folder name for the documents. It's the best solution I found. I have a user who can connect, but the Print app still shows a blank page as if a document has not been sent. Hello, I am trying to create a VBScript to get the

password from a list of users. As you can see, my code is as follows: # note that for security reasons we do not use a variable here. You can, however, add a "connection. Each of the lines of the script is commented with the information needed to determine why the user was not able to access the printer. In fact, the printer is connected to another computer with my administrator user account on that computer. I still get the error "The operation has failed." I have confirmed that the user does have a printer on their computer that is in the list. This script works perfectly on a different machine that I have been using. I have tried renaming 520fdb1ae7
