Success in the fast-paced field of alternative investment (AI) depends on a deep understanding of its concepts, tools and practices, as well as an unwavering commitment to professionalism. The CAIA program addresses these basic needs. With the support of the Association of Chartered Alternative Investment Analysts (CAIA), #174; The CAIA Charter is the only educational standard unique to those specializing in institutional #45; quality alternative investments. Embracing hedge funds, managed futures, real assets, private equity, commodities, structured products, risk management and portfolio management, as well as professional standards and ethics, CaIA Charter demonstrates its commitment to professionalism and unique AI AI setting you and your firm apart from competition. The CAIA program consists of a two-tier #45; (Level I and Level II) with which you can obtain the CAIA Charter. The Level I exam assesses your understanding of different alternative classes and your knowledge of the tools and techniques used to assess risks and #45; return the attributes of each. The LEVEL II exam assesses how you will apply the knowledge and analytics you gained at I in the context of portfolio management. Both levels include ethics and professional behavior segments that are important components of the CAIA program. Written under the direction of the CAIA Association, with ideas from many practitioners and eminent professionals in the field, Alternative Investment: CAIA Level II, the Third Edition contains basic material on alternative investments potential Level II candidates should know how they prepare for the exam #151; multifaceted assemblage of questions and problematic #45; problem solving. Since the terms and terms presented at level I are the basis for the second tier of the programme, the information found here will continue to focus on issues related to alternative investment, but in more detail in the context of risk management and asset allocation. This comprehensive resource: Discusses cutting-edge themes in alternative investments and #151; From risk #45; parity and

factor investing to real assets, structured products and operational due diligence. The focus is on the analysis and application of the main strategies involved in each alternative asset class. Asset allocation and risk management addresses suitable for the construction and management of #45;assets. Complemented by a training guide outlining the goals of learning and keywords, as well as a work book, as available on www.caia.org. Since its inception in 2002, CAIA has developed a diverse curriculum, from institutional investors, investment advisers, AI fund managers and administrators to accountants, lawyers and academics. Those who are seriously interested in getting the CAIA Charter should take the time to understand the ideas offered in this book and in alternative investments: CAIA Level I, Third Edition. The CAIA Association is an independent, not #45; for-#45; profit, a global organization committed to education and professionalism in alternative investments. It offers two exams (Level I and Level II) for financial professionals in this growing field.
