So let's begin the guide, Download the Magisk Manager App in Lenovo Z5 L78011. Downloads & Requirements Step 1: Download the App on your device We will be using Magisk Manager app for rooting Lenovo Z5 L78011, it is a basic app and you can install this app from the store as you are able to root any phone using this app. Here is the app details: App Name: Magisk Manager Version: v8.10.2 Developer: Magisk Team File Size: 1.26MB You will have to download this app in your device. Click on the download button on the download section of the app to download the app. After downloading the app, you will find it on the home screen of your device. Step 2: Check the permission Tap on the app to open it. Tap on the three dots in the top left corner. Now you will see the permission checkbox. We will be checking the permission to install Magisk Manager. Click on the three dots once again and you will see the permission box. Enable the "Unknown Sources" option from the drop down menu. Now you will see the permission is already enabled. Step 3: Installing the Magisk Manager Open the app. Now tap on the "INSTALL" option. Now go to the device and tap on the INSTALL button. Now you will be able to see the progress. Step 4: Going to the Magisk Manager We will now open the Magisk Manager app to check the root status of our device. Now tap on the "Rooting" option. Here you will see "Rooting is impossible". But we have to root our phone to get rid of the AT&T bloatware. Click on the "Check & Root" option. Now tap on the option and you will be able to root your phone. Congratulations! You have successfully rooted your Lenovo Z5 L78011. But be careful, be sure that you take your phone to the place where you can easily get it. If you face any issues in rooting your phone, comment down your problem in the comment box below. We will help 520fdb1ae7
