Seasoning for Snack

Potato Chips | Rice Puffs | French Fries | Nuts

92% of the U.S. adults had a snack within the last 24 hours. Savory snack potentially can replace a meal in young generations. We help snack brands stay on top of these trends with rapid formulation & low MOQ.

We help healthy snack brands develop their seasoning without use of MSG or artificial ingredients. Restaurants can apply snack seasoning into appetizers, french fries or fried chicken.

Seasoning for Cooking

Soups | Marinades | Sauces | Rice | Pastries | Desserts

Ready-To-Eat Food is gaining popularity as the number of convenience stores and supermarkets grow. Producers want to offer more recipes but preparing fresh ingredients can lead to higher complexity.

Premixed recipe formula is a good way to simplify production. Powder is easy to handle, transport, store and causes less packaging waste. Dissolve dry mix into water, boil, portion, then freeze.
