Stolen Crypto & North Korea: North Korea has become the dominant force behind global cryptocurrency theft, with analysts at TRM Labs estimating that 76% of all crypto stolen in 2026 has ended up in the hands of the Democratic People's Republic of Korea (DPRK). Experts say the regime has exploited the weak security and decentralized structure of crypto platforms, which often lack the safeguards and rapid response systems of traditional banking. Researchers also believe North Korea is increasingly using AI to improve social engineering, automate coding, and identify vulnerabilities faster, making attacks more convincing and efficient. Security analysts warn that AI-powered cybercrime could overwhelm current DeFi governance systems, allowing attackers to steal massive sums before humans can react, while the stolen funds continue to support North Korea's weapons and nuclear programs.

The Latest in Amazon Impostor Scams - Criminals often impersonate major brands with large audiences—and Amazon is one of them. In two newer tactics, scammers send text messages claiming a recent order was recalled, with a link to a fake Amazon website designed to steal account information. Or you get an email saying your Amazon Prime subscription is renewing at an unusually high price, prompting you to click a "cancel subscription" button that leads to a fake sign-in page. *If you have an Amazon account and get a communication seemingly from Amazon, sign into your account with the Amazon app or online at Amazon.com to see if there is a problem. You can report suspicious messages at amazon.com/reportascam or by emailing reportascam@amazon.com.*

Call The Wyoming Senior Medicare Patrol for assistance with potential Medicare fraud or abuse at 1-800-856-4398

Information and resources to help you with...

AWARENESS • EDUCATION • OUTREACH

CyberWyoming Alliance's goal is for Wyoming to be the most cyber-secure state in the nation. To do this, we know that cybersecurity efforts have to be local, trusted, and grassroots in nature.

If abuse, neglect, abandonment, intimidation or financial exploitation of an older adult is occurring, report it to Adult Protective Services.

Basics of what DFS/APS can do:

- If an abuse/neglect case is reported and opened, an APS Caseworker will respond within 24-72 hours, depending on immediate danger or impending harm.
- APS is mandated by statute to notify law enforcement.
- An APS Caseworker will interview the vulnerable adult to determine the facts of the situation.
- APS works with the vulnerable adult regarding availability of community services he/she is agreeable to receive in order to ensure his/her safety.

Basics of what DFS/APS cannot do:

- APS cannot force anyone to accept help, adults have the right to refuse.
- APS cannot force anyone to reside in a nursing home, APS is committed to keeping vulnerable adults as safe as possible, in their own homes.

How to make a report:

Call (307)777-7564 or click on dfs.wyo.gov/about/contact-us/
 This is a link with contact information to each community in Wyoming that has a DFS office. APS abuse/neglect reports can also be made by contacting law enforcement in the community where the abuse is taking place.
