Continue

Quests are missions that can be completed either to advance history or to obtain items and other goods. These missions can be viewed in a magazine. In the magazine they are divided into three sections. Active - All the missions that you are currently active with. Completed - All the missions you've ever completed for this character. Maps - Shows every treasure map you bought or found. Once selected, the menu will show a list of quest names, difficulties, and completions. When selecting a quest from this list, you can view detailed information about your chosen quest, such as rewards and goals. Rewards for the quest experience are largely based on the difference between the level of the player and the level of the quest. The exact numbers are the same as for ordinary enemies, but multiplied by 4. Thus, rewarding a quest of 10 experience means: 4 times the experience you get to defeat a level 10 enemy. The exact table for the difference levels and exp rewards can be found on the Experience page. Content Show History Of the List>Edit Quest Basic quests Edit the title quest The purpose received from the Category Road Awards to the city You have to travel down pillar of the mountain and get inside Evergreend City to enter the exam!
