have taken over the running of the store in recent years. ****Conclusion**** That's it for Stone Country, Dayak and Dayak Peak. I've had a blast writing this book, and I hope you've enjoyed it too. You can check out my Instagram here to see photos of the trip and keep up with me in my social media accounts. I've got lots more to share and cover, so stay tuned! ****NOTES** **1****. I found this information by spending time in the local guides' homes, meeting with local "coolies" (as they were called in the old days), talking to traders, spending time in markets, and by talking to local villagers and travelers. They also shared the information with me. ****2****. All of the notes on this page were written on the trek and weren't recorded until much later. ****3****. The island of Bunaken (in Indonesian) means "in the same way." ****4****. "Unscheduled departures" refers to when a ship is unable to reach the port where its scheduled stop is, leaving the crew and passengers without a place to stay. ****5****. This is a common scam throughout Indonesia. The cheaters give their guests certificates of authenticity for each item they sell. These certificates are then sold to new customers. ****6****. Maelstrom is a Scottish sea monster. ****Acknowledgments**** I have to give a big thanks to my parents, Daniel and Charlotte. They were patient and let me pursue my dream of writing a book. I'm also grateful to my editor, Jennifer Gardeck, for helping me put everything in its rightful place and pointing me in the right direction, and for being a true friend. And, of course, to my publisher, Rachel Kahan, for taking a chance on this book. I'm also grateful to my friend, and former boss, Zach Hughes, for his generous support throughout the creation of this book. I'm thankful to my friend, and fellow author, Caleb Yap, for his assistance in putting this book together. Caleb is also a very good photographer and videographer. To my agent, David Brown, for believing in me and this book. To my agent, Emily Kowal, for her guidance and wisdom throughout this process. Thank you to every person who made this book possible 520fdb1ae7
