- VL8** misschien moeten we het zien als een pilot waarbij we de methodiek die we wensen te gebruiken voor OZ-projecten eens voorleggen aan de groep: we willen systeemdenken stimuleren en gaan daar verschillende tools voor gebruiken (SDG's, stakeholderanalyse, ...) wat gaat goed, wat missen we,... ook iets doen met ambitieniveau? we willen verder gaan met projecten dan campagne of actie-niveau.

A challenge for research.

A photograph of a tree branch with many bright green, serrated leaves. Sunlight filters through the leaves, creating a dappled light effect and highlighting the texture of the foliage. The overall atmosphere is fresh and natural.
