

Beck - Where It's At

[Spicy Filters from BeWellPlayed.com](http://BeWellPlayed.com)

[Verse 1]

There's a destination a little up the road
From the habitations and the towns we know
A place we saw the lights turn low
The jig-saw jazz and the get-fresh flow
Pulling out jives and jamboree handouts
Two turntables and a microphone
Bottles and cans just clap your hands
Just clap your hands

[Chorus]

Where it's at!
I got two turntables and a microphone
Where it's at!
I got two turntables and a microphone
Where it's at!
I got two turntables and a microphone
Where it's at!
I got two turntables and a microphone

[Verse 2]

(Take me home with my elevator bones!)

(That was a good drum break)

Pick yourself up off the side of the road

With your elevator bones

And your whip-flash tones

Members only hyponotizers

Move through the room like ambulance drivers

Shine your shoes with your microphone blues

Hirsute with your parachute fruits

Passing the dutchie from coast to coast

Like my man Gary Wilson (rocks the most)

[Chorus]

Where it's at!

I got two turntables and a microphone

Where it's at!

I got two turntables and a microphone

[Bridge]

("What about those who swing both ways? AC-
DC's?")

(Let's make it our baby)

Mmmmmmm

Cheese

Two turntables and a microphone

Two turntables and a microphone

Two turntables and a microphone

Two turntables and a microphone

Two turntables and a microphone

Two turntables and a microphone

(We're all part of the total scene)

[Chorus]

Where it's at!

I got two turntables and a microphone

Where it's at!

I got two turntables and a microphone

Make yourself ?

(That's beautiful, dad)

Got my microphone

[Verse 1]

There's a destination a little up the road

From the habitations and the towns we know

A place we saw the lights turn low
The jig-saw jazz and the get-fresh flow
Pulling out jives and jamboree handouts
Two turntables and a microphone
Bottles and cans just clap your hands
Just clap your hands

[Chorus]

Where it's at!
I got two turntables and a microphone
Where it's at!
I got two turntables and a microphone

(Make it our baby)
(Make it our baby)
(Let's make it our baby)

Ohhhhhhhhhhh
It's all good
All good
