Stay connected  
with our  
community and  
welcome to  
participate in  
what God is  
doing.

# OMORO RECEIVES CLEAN WATER

This August, we witnessed a double blessing in Omoro. Over 70 families now have access to clean, life-giving water through new filters, bringing hope and health to the community. Even more powerfully, more than 10 individuals were transformed by the Gospel, finding new life in Christ.

But the journey is not over. Many communities still rely on open wells that flood during the rainy season, risking sickness and disease. Our mission is to provide a lasting solution by digging deep wells for the community where our new branch church is located.

Clean water quenches physical thirst, and it's also a powerful symbol of the Living Water that Jesus offers — the true source of eternal life and salvation.

Join us in bringing hope, health, and the Gospel to Omoro.

# Raising Up the Next Generation of Leaders

Over 400 passionate young people from Tororo and surrounding districts gathered in Tororo on August 30th for a powerful day of empowerment. Student leaders from over 20 high schools convened to answer the call for **radical evangelism** and **discipleship** in their schools. The enemy is actively targeting young people, but we are raising up a new generation of leaders to fight back!

Our youth are the future, and we are intentionally reaching them through institutions to equip them to serve the Lord. This rally was a crucial step in awakening our young leaders to the urgent need for a spiritual revolution in schools. Let's stand with them as they bring the light of Christ to their peers!

# New Skills, Brighter Future

Over 40 households in the Layibi community, including young mothers, widows, and youth, recently participated in a business skills training program organized by Hope Tabernacle Ministries in partnership with Life Ministry Uganda.

Participants learned how to make essential products like **liquid soap, bar soap, and Vaseline**. We are trusting that these new skills will empower them to support their families and contribute to the church, building a stronger and more self-sufficient community.

With these practical skills, we're helping community members create a brighter future for themselves and their families. Their new abilities to produce these everyday goods will provide a foundation for financial independence and stability.

# COMMUNITY TRANSFORMATION THROUGH FARMING AND DISCIPLESHIP

Our ministry is piloting an innovative approach to community transformation through farming, specifically targeting the peasant farmers in our village churches. Our goal is to empower groups of couples to transition from subsistence to commercial farming, building a foundation for a more sustainable livelihood and healthy church fulfilling the great commission. We're creating groups of 15 couples and training them not only in environmentally friendly agricultural practices but also in discipleship, a saving culture, and crucial life skills like counseling, trauma healing, and conflict resolution. To help them increase their harvest, we intend to provide essential agricultural support services, including sets of ox plows to help them increase land cultivation. By empowering these families with new skills and resources, we're helping them generate income, strengthen their family bonds, and deepen their connection to God and the land.

## NEHEMIAH 6:3

So I sent messengers to them, saying, “I am doing a great work, so that I cannot come down. Why should the work cease while I leave it and go down to you?”

Do you have a vision from God and feel resistance to its fulfillment? The pressure from the world and the devil is real against God-ordained initiatives. Nehemiah is an outstanding leadership figure in the Bible who received a call to rebuild the broken walls of Jerusalem. He faced tremendous resistance to every effort he made in fulfilling God's vision in his time. The resistance was aimed to distract, discourage, discredit, and ultimately discontinue the work.

### Action Point

I would like to invite you to respond as Nehemiah did. He said, "I am doing a great work, and I cannot come down." May the Lord empower you to complete the good work you have started, in Jesus' name.

# PRAY WITH US

---

## Church construction to be completed

The church is currently constructing a new building after recently relocating due to road access improvements. With the generous support from members and friends, significant progress has been made, and there is a call for prayers to ensure the completion and resourcing of this ongoing work.

## More laborers for church planting

In northern Uganda, there is a significant demand for discipleship and the establishment of healthy churches, as the call for evangelism and discipleship intensifies. However, trained laborers in the region are scarce. In response, the ministry plans to implement leadership training programs to cultivate dedicated individuals for this vital work. We request prayers for God to inspire faithful people to fully embrace His call.

## Radio Ministry

An expository Bible teaching program by Through the Bible in Luo language is being voiced by Ps Samuel Okello and broad-casted daily from Monday to Friday for five years on Favor FM. The program, which seeks to reach and inspire more individuals to engage with the teachings of the Bible is gaining significant testimonies from listeners. We request Prayers for increased receptivity among the audience and grace to labor in the word.

## Community outreach initiatives

We are engaged in community empowerment initiatives aimed at sharing the gospel and supporting disadvantaged individuals. These ventures include market evangelism, hospital ministry, supporting local farmers, distribution of water filters to communities facing water scarcity, and business skills training. The ultimate goal is to enhance the spiritual, emotional, and physical well-being of those in need, with the love of God. Pray for expansion of our outreaches
