(Monster, Spain's S.A.) The American animated film, which was released in theaters by Walt Disney, was released in theaters by Disney Vistacion on 21 March and was re-edited in 3D in 2012. The acquisition of the city of Monstrupolis is a reality where monsters live outside the human world. With the exception of Monsters Inc., a company dedicated to scaring children to get the energy supplied by the city from screaming. However, it is a very difficult task, with children and every object they come into contact with is potentially toxic to monsters. Therefore, every time a monster enters the human world to fear the human world, it is necessary to be very careful, and not to use the door of the closet to import anything from the human world to Monstrupolis. James P. Sullivan Sully, a 2-meter-long blue-haired monster, holds a record that has never surpassed a child's scar. Michael Wazowski, a green snowmonster, is his terrifying assistant and best friend. Randall Boggs, a purple lizard-shaped monster with chameleon qualities, is a nemesis who can't reach Sully. One night, at the end of her work day, Sully discovers that they have left the door without. And when you open for a test, the girl enters the world of monsters. Sully, Randall, who was in charge of Randall, took the installation card to guard the door, later decided to take a woman who was very scared in a company bag with toxic beliefs, to find a microphone in a restaurant celebrating his girlfriend Celia's birthday, and then the girl escaped causing great hysteria and searching throughout the city, after seeing a man infiltrate the city. Scaring them, decide to call her boo, the first word solved by monsters. Knowing that the entire city is afraid of being discovered by the company, the two friends decide to find the door to return home and notice everything. The next morning, Sully searches the door of Boo and Mike (which was discovered by Randall associated with a girl) and hijacks, and Sully discovers that Randall has a hideaway in a company that is cheating on him to help him win the rankings, and at the same time there is a machine that absorbs children and generates more energy. Sully manages to save Mike, and by chance the head of the company (Mr. Waternoose) calls him to give a loud and terrifying roar in front of a very touching employee inspector. But the boo, who escaped from the microphone at the time and stood in front of Sully, is very afraid of him, fearing the roar. When the investigatorleaves, Waternus finds That Sully and Mike have a girl, explains everything that happened to her, and finds that there is no toxicity about it. Their boss agrees to return the company to a place where boo sleabys are not in trouble, but when they set the door and saw that it wasn't his, they realized that Waternoose was Randall's accomplice, and they were both thrown into Nepal in a severe blizzard. At the scene, Mike and Sully are rescued by an abominable snowman and hid in a cave, where they discover that there is a very close village. Sully rushes to the village and returns to Monstroudpolis to save clumsy, but Mike gets into trouble and decides not to go with him to avoid it. Sully arrives at the company and manages to save the girl from the machine, regrets that Mike appears and leaves Sully alone, and a chase is made for Randall to kill them. Sully and Mike arrive at the headquarters of all gates transported to high-altitude tracks and begin fighting with him as they struggle to find the door. And discover that the laughter of wealth activates the door and generates much more energy than fear. Eventually, they can put Randall at an unknown door, drop him at high altitude, be destroyed, appear in the trailer, mistake him and beat him to Peselagarto. After a while, they are returned by Waternoose, who asked for company security, Mike distracts all security, and Waterus finds out that Sully has the girl and chases him. When he reaches it, he faces him handed over to the deputy, and in the process is under desperate pressure to end the conflict as soon as possible, he has stated that he is willing to steal as many children as he needs to absorb them (which will kill them) and will do so. It kills people who grow the company even more and try to stop the insensitivity. His stated intention is to immediately inform the CDA and Waternus is recorded by Mike, who was arrested by his brutal selfish extremists, and Sully fiercely accuses the company of destroying it. Sully unmasks Randall and Waternus, is recognized by the company, and can return home by handing over the doors of wealth. But this time the door will be broken and safe forever. Sully says goodbye to Boo with deep sorrow. The door was eventually destroyed, causing problems for the company. But the company can't ruin everything that's happened. Sully recalls that laughter generates 10 times more energy than fear, and Sully (the company's new director) turns the horror factory into a smiling factory. Mike then tells Sully. He said he was pleasantly surprised to be able to join all the debris that came out of the door of wealth. However, the microphone explains that the door must be physically completed for it to work. Sully has the last missing piece and Sully places it and puts the door back on the service. When he opens it, he happily returns to hear her nickname, Gattito. Cast John Goodman - James P.
