Cricut manual setup

Complete machine setup automatically registers the machine to your account. To set up your Cricut Explore, Explore One, Explore Air, Explore Air 2 or Cricut Maker machine, do the following: Plug in the machine and power it off. Connect the machine to your computer using the USB cable or pair it via Bluetooth. Go to design.cricut.com/setup in your browser. Download and install Design Space for Desktop. Follow the on-screen instructions to sign in or create your Cricut ID, and set up your new machine. You will know that the installation is complete when prompted to make a test cut. Plug the machine in and power it. Pair your Android or iOS device with a Cricut machine via Bluetooth. Download and install the Design Space app. Launch the app, and then sign in or create a Cricut ID. Tap the menu and select Machine Setup. Select your machine model and follow the on-screen prompts to complete the installation. You will know that the installation is complete when prompted to make a test cut. Tip: Your machine is automatically registered during the machine setup. If you didn't complete the installation when you connected your machine to your computer for the first time, re-connect your machine, go to design.cricut.com/setup or select New Machine Setup via the Design Space account menu, and follow the on-screen prompts. The Cricut Explore Air User Manual is available as a downloadable PDF. Simply click on the links below to access the view of a manual section. 1. Machinea. Cricut Explore Air™ what's in the boxB.
