A quick Lego puzzle box. This is my second box if you want a briefing for the first one that has more space just to leave a comment engagement in UP! Competition Is a puzzle for Kids.This puzzle has beautiful pictures of football and ducks. This puzzle is made in automatic synthesis 360. This puzzle has a tally of numbers from one to ten. This puzzle has sliding joints between different components. There are only twelve components in this puzzle. To prepare this puzzle, first open the autodesk fusion 360.Then enter the 360.Draw square with 200 mm in the model. Then squeeze the square into 100 mm. Then select the creation sketch. Then draw different lines on the top side. Then draw circles, as shown in the picture. The sketch, which is not required, is trimmed using the trim option in the tape drop down to create a sketch. After creating a sketch, click stop the sketch. Then divide the body with drawn sketches. Then apply the colors to the various components. The colors applied are green and red, and these colors apply to each other. Then I joined the various components of the joint option from the tape to drop down the build in merging 360.I applied sliding connections between different components. So I joined the various components of the puzzle. After attaching the puzzle I applied a sticker or image on the top side of the puzzle. I applied two images of a duck. Then I entered the model of the workspace fusion 360.Then I took a version of the text from the tape drop down the text. I dialed the numbers from 1 to 10 on the top surface of the puzzle. Then I typed the option of stopping the sketch to stop the text addition to the puzzle. Then I applied the fillet on every edge of the puzzle. The fillet is added over and over again, so that each face is smoothed out. A fillet supplement is needed so that it will not harm the soft skin of children. The fillet supplement also reduces the concentration of stress in puzzle. After the fillet the add-on puzzle looks beautiful from the top point of view. Then I entered the render space work merging 360.Then I added pictures of football on different faces of the puzzle. Photos are added using the Decal option in the space render-work synthesis 360.In this step I added different views of the puzzle. More experienced puzzle fans can find the challenge they are looking for with the White Mountain Puzzle Pencil Collage. This 1,000-piece puzzle is more advanced thanks to its complex drawing with hundreds of unique pencils. Once completed, the Pencil Collage puzzle measures 24 x 30 inches. The design puzzle is a replica of an incredible collection of advertising pencils created by artist Maureen Rupprecht, and many fine lines and details make for a challenging puzzle. White mountain puzzles are made in the U.S., and each puzzle is made of a durable blue chipboard on recycled paper. Reviewers say that this puzzle is difficult without upsetting, and you are sure to discover a lot of charming details as the picture comes along. Overall, Mountain Puzzle Pencil Collage is a must for advanced puzzles, as it will provide hours of entertainment as you put together a complex design. This adult-only puzzle makes a great gift! Bottle wine puzzle is a wooden trick that fits around a bottle of wine and you have to figure out how to undo the different parts before you can enjoy the drink. This puzzle matches the standard 750ml bottle of wine, and the rope piece puzzle can be adjusted to accommodate bottles of varying heights. On a scale of one to five, a bottle of wine puzzle is about three, so it's hard enough to make you think, but not so hard that you get frustrated and give up wine. If you are looking for a unique gift for puzzle-loving adults, this product certainly fits the bill. Reviewers say it's a tricky puzzle to figure out sometimes takes hours, but once you figure out the steps, you'll quickly get the hang of it. Some people note that setting up instructions for wine bottle puzzles are not great and you can watch a YouTube video to get it customized. Children aged 6 years and up will love this oversized puzzle that equals parts fun and educational. The Melissa and Doug USA Map Floor Puzzle has 51 pieces that make up a map of the United States, teaching kids about geography and state capitals as they play. The U.S. Map Floor Puzzle measures 24 x 36 inches when completed, so it's best to have kids put it together on the floor or a large table. It consists of 51 pieces (not every state gets its own piece) and is made of an extra-thick cardboard material that can be wiped clean. As the kids put the map together, they will become familiar with the location, shape and capitals of all 50 states, helping them get ahead to school as they have fun and work on fine motor skills. Reviewers say that their children love this puzzle and that it is a useful learning tool. Bright colors and sturdy design make it the perfect puzzle for the kids in your life. For the youngest kids, toddler puzzles like Melissa and Doug Farm Wooden Chunky Puzzle makes a great toy. This simple eight-piece puzzle has a variety of cute farm animals that kids aged 2 and over will love to play and learn. This accessible puzzle has eight wooden pieces in the shape of farm animals that fit into extra-thick puzzle boards. The pieces are large enough for small hands to understand and they can even be stood up if you want to use them as playable numbers. This toy is perfect for improving hand and eye coordination and fine motor skills, and young children will love about different animals along the way. Reviewers say Melissa and Doug Farms' Wooden Chunky puzzle is incredibly durable and lengthy- you'll probably be able to pass it along to friends or family once your kids have outgrown it. Overall, it's a fun, educational educational puzzle at an affordable price. If you're not into puzzles, you can appreciate this collection of logical puzzles as well. For a simple but incredibly challenging puzzle, you can't go wrong with the classic Rubik's Cube game. The concept of the game is simple, but you may be surprised at how hard it is to get all the colored squares to line up. This inexpensive puzzle comes with a simple task: figure out how to get all the colors to match on each of the six sides of the cube. However, if you've ever played with a Rubik's Cube before, you know it's easier said than done. You'll spend hours twisting and turning the cube, hopefully figuring out the trick to get it back into its original color sequence! The Rubik's Cube is one of the most popular and attractive puzzles in the world and it is recommended for those aged 8 years and older. This product comes with a display stand and a guide to solving, and reviewers say it's a high-quality puzzle that provides hours of brain challenging fun. If you've already mastered the standard Rubik's Cube, you can take the challenge up a notch with the ShengShou Megaminx Speed Cube puzzle. This puzzle in the form of a dodecahedron has 12 sides and 50 moving parts, compared to six sides and 20 parts of a cube of ordinary Rubik. The goal with Megaminx is the same as with a Rubik's Cube: to get all sides of one solid color. However, the problem is increasing due to the unique shape of this product and the increasing number of moving parts. Reviewers say the Megaminx hand turn easy and that it's an engaging puzzle for all ages. Many note that this is an interesting new challenge for Rubik's Cube lovers and that it may take hours to resolve. . banking chronicle puzzle pdf. banking chronicle puzzle pdf free download. banking chronicle puzzle youtube. banking chronicle free puzzle pdf. banking chronicle 2.0 puzzle pdf. banking chronicle puzzle pdf in hindi
