Real Estate Institute Features Even though the Real Estate Institute gave our list of their Fast Track course, their Directed Track or their Flex Path program is also a good opportunity for people who are still working their old jobs or those who don't have the opportunity to attend a live class in the Chicagoland area. The Real Estate Institute has several other perks that have attracted our attention, such as a printed textbook and course availability outside the city. Real Estate's other course benefits include: Course Format Online, study-at-home parts of Flex Path and Directed Track courses are described as simple. Only material from any device can be studied. Since 15 hours of interactive lessons can be completed through an online webinar, the outside of the Chicago area can take these courses. The unique offerings of the Real Estate Institute's Fast Track course are the most exciting course that this school offers, and that sets it apart from the other programs we compare. Students will be able to complete 90-hour courses in two weeks. The other thing we liked about the Real Estate Institute is that they provided each of their students with printed textbooks at no extra cost. It's a nice perk and one that usually costs extra for most real estate schools. Real Estate Institute Customer Support The Real Estate Institute offers a variety of customer support options. Students can call, email, or send a message on their website via live chat or Facebook messaging. What the Real Estate Institute is missing like other schools on our list, the Real Estate Institute does not offer class courses outside the Chicagoland area. Unfortunately, none of the schools on this list seem to offer live courses in other cities, such as Peoria. What users think of the Real Estate Institute Most reviewers have good things to say about living in a classroom experience through the Real Estate Institute. Some said that Fast Track course instructors got down to business and didn't spend much time on business tactics or real-life scenarios. Instead, they covered the necessary materials to meet the course requirements, but not much else. Most of the complaints concerned live webinars. Some students complained about not being able to hear the instructions, while others said that the webinars did not happen at the right time.
