

Transcript of the English subtitles for the video titled
Let's Unite the NATION!!! We already have what belongs to Us
(Edited by Vincent Gillespie. 9/21/2025.)

[Female voice whispering:] (0:07) My Slovakia, my fatherland, beautiful you are like a paradise.

[Narrator:] (0:36) Slovakia, the heart of Europe. Here lives one of the oldest European nations, which was the last to succumb to the dark parasites in the distant past. The beautiful land that our ancestors fought for has survived many centuries of great trials.

(0:50) Suppressed self-esteem left its mark. However, our genetic memory is awakening. An inner force longing for a new world has given us the ability to start something spectacular and show the world the way to a new era.

(1:03) For the last 30 years, under the illusion of freedom and democracy, the parasites have looted our land as much as they could. (1:08) They have divided and pitted us against each other to more easily control our minds and try out their dark plans. Destroyed forests, agriculture, healthcare, industry, degradation of education and culture. Not freedom, but genocide when the birth rate is at the point of extinction. For a long time we turned the other cheek and let ourselves be beaten.

(1:27) Already little Jánošík showed us what to do.

[Excerpt from a film featuring a young boy named Jánošík:]

[Jánošík:] Grandpa? Grandpa!

[Grandpa:] I'm listening, I'm listening.

[Jánošík:] Is it all true what is written in the Bible?

[Grandpa:] Aaaah, hell knows... The Bible says all sorts of things. Ask the priest.

[Jánošík:] (1:45) If someone throws a stone at you, throw back bread. Is that to be believed?

[Grandpa:] Oh well. Who would throw bread, you can hit better with a stone.

[Jánošík:] You bet. And... and if someone smacked your ear, what would you do to them?

[Grandpa:] I would knock his head off.

[Jánošík:] That's good then.

[End of film excerpt]

[Narrator:] (2:08) Strike back is coming. With the exact same weapon they enslaved us with [i.e., the financial system]. Our ancestors knew what was coming and left us everything we need to win. Guardians have guarded the treasure that belongs to us all for millennia. The knights were able to overcome all obstacles and take over a financial system that never belonged to parasites. Yes. We own the entire financial system and we will transform it into a new bright one that is filled with the energy of the Creator.

(2:39) We need to go through a transition phase from the world of money deception to a new world, where people find that money is just a means and nobody needs it. It is necessary to go gradually. Sovereign International Treasury M1, which fulfills the sacred mission and fulfills the holy duty to all mankind, as the only nation of the world, (3:01) by the right of the supreme sovereign, by the right to own all the world's assets, by the right of the regulator of the world financial system, has shown the world the way to get out of the crisis and start a new golden era. We closed the parasites' accounts, canceled the disposable rights, took away the codes, canceled the central banks. All this gradually manifests itself in the material world.

(3:26) In Slovakia, we founded the Slovak Consumer Cooperative ROD, which is sovereign and is part of the new global financial system.

[Emil Skirkanic:] (3:35) The cooperative is an international institution, a financial institution, and it has prepared all the means, instruments and everything related to it, so that we can help every single individual, every single one.

[Narrator:] (3:50) We have created a clearing centre – the National Treasury, and the National Bank of the Slovak Consumer Cooperative ROD. The new financial system is starting in Slovakia. Now all that's left to do is to join together and start building.

[Emil Skirkanic:] (4:03) I literally call on all such bright Slavic groupings that arise like mushrooms after the rain, that it is time to join together. Mostly you have to join with those who have something. And not with those who have nothing. Well, we are here to join with everyone. Both with those who have and with those who don't. Because we have. Well, all this we have is ours. Well, try to think that everything is ours. Well, when everything is ours, then the only question is whether we should help each other or to do I don't know what?

[Narrator:] (4:50) The main goal is the Cone of Creation, which is the only possibility of existence, life and flourishing on earth in everything. We have shown you all the steps of how we will do it, how we will lead our nation and the nations of the world out of poverty and into prosperity.

[Emil Skirkanic:] (5:06) We have our information that everyone runs on fumes. Well, when everyone runs on fumes, then Slovaks and Slavs must join together because when someone just states that what needs to be done, then the people and the nation must also be told how to do it. Not only what we would like. So I call upon you again, Slovaks, Slavs, any pro-national forces, any Slavic forces... we must join together. (5:44) We are here, at 14 Hviezdoslavov Square. Well, we invite you to cooperate, we invite you to cooperate so that you know that we are opento everyone.

(6:02) We don't need anything from you. Because you have nothing. You are only in a state of wanting. You all want to. You just don't know how to do it because you have nothing to

do it for. Well, that's where the wanting ends. Everyone is in this state. I would also start a business, maybe someone will say, but I don't have money. I would also do something, but I don't know how, because there is still no money. (6:30) We live in a material world. There is a need for money in this world. And not for a person to devour everything, but for the sake of creating their own, individual level of well-being, and because we know very well that money will not bring happiness to anyone, but it can be helpful in making them happier. If they know how to use it properly. So that it doesn't hurt them. (7:05) Well, so we have come up with a whole structure that will be completely acceptable to everyone. Because it is natural for them. By their genetic lineage. We only return to the mission of our Slavs. This does not mean that we will now all walk around in skirts and forge horseshoe nails. This means that it is important how we treat each other culturally. We're not here to judge anyone. (7:36) We are here to serve. And to serve means that you show how you can help, I can help you, so let's go and live as one big family.

[Narrator:] (7:46) The SunRise program of the new financial system, one big family. Cooperatives filled with golden assets, filled with the energy of Creation. The union of the peoples of the whole world. No Trump or Putin will save us, nor Gesara. They [the parasites] have been lying for over a thousand years. They all know about the M1, yet they lead the nation to slaughter. (8:04) To the streets and protest? Against whom? After all, it no longer belongs to them here. We own these corporations. Join the Cooperative, you will become sovereign, and let's go to the streets not to protest, but to celebrate. We no longer need them.

[An excerpt from another film featuring Jánošík, but as an adult young man in this case.]

[Unidentified character in the film, apparently an agent of the emperor:]
(8:18) Jánošík, for the last time! What will you answer the emperor?

[Jánošík:] Tell the emperor he is not needed. Just like you. There are fires burning on the mountains (uplands). Tell that to your emperor.

[End of film excerpt.]

[Narrator:] (8:38) Yes, their banks are already burning. They are all ours. Only you look in disbelief and think that it can't be true. Divide and rule. Yes, they divided us in everything. In religions, including us Slavs. We compete to see who is a bigger "Slav" or "Slovien" or "Staroverec" (Old Believer) and they laugh at us.

(8:56) Come to your senses, nation!!! Start taking action!!! Discover in yourself how you want to contribute, just as we discovered when we founded "Zlatá éra" [a Youtube channel with videos about Alexander Paramonov and related issues] and "Slovanské noviny" [a Slovakian online publication about Alexander Paramonov and related issues] and no one pays us. No NWO and what the parasites put in your head. We are ordinary men and women who desire to live in peace, in prosperity and to create.

(9:14) Where is all the media when they can spread the good news that the nation has hope. Where is your conscience? When you know about it, but you keep silent? I call upon you!!! It doesn't matter whether mainstream or alternative, show the nation the TRUTH that they have the right to live in prosperity.

(9:23) I call upon everyone - LET'S UNITE!!! It doesn't matter what your religion is, we are one and we have one power. Everyone saves their own souls, but when we join together, we can do anything. I know, we can't force you, but we can light your way with our actions. We have made a decision.

[Unidentified persons:] We are Slavs.

[Narrator:] (11:22) The whole world is joining together. We Slavs, that is a culture of coexistence, Truth, Justice and Conscience. Let us awaken in ourselves the strength to give a hand, like brother to brother. It doesn't matter what nationality, religion, skin color, and let's give of ourselves everything that is natural to us born. No nation is a nation if it cannot self-organize and unite. Let's carve our names into the universe.

(11:44) Your entire "ROD" (lineage) now looks up to you and trusts you. Our grandfathers died so that we could live. All we have to do is to unite and start building. You too have been given the trust to live in this important time. Throw away your fear and your ego and together we can build a future for our children and our nations. (12:02) Let us take what belongs to us. Your "ROD" (lineage) is calling you.

[Unidentified children:] We are united.

[Unidentified boy:] We are Slavs.
