Agile Munich partnership packages

We will welcome 200 Agilists at Agile Munich this year to join our program. The purpose of the event is to inspire and inform our participants about the latest trends in Agile. Does your company wish to reach the core of an Agile organization and have an opportunity to communicate with this target audience?

We offer three different packages for promotion before and during the event. For gold partners there is also an option to exclusively deliver a case study with a client. If there are any questions about the partnership options, please contact Joost Brugman.
