It works with virtually any sound source and transforms the way you approach your recordings. The good news is the SPL Virtualizer MK2-T is really easy to use: all you have to do is move the mouse to the spot on your track where you want to be redirected, and the SPL Virtualizer MK2-T will do the rest. Each of the SPL Virtualizer MK2-T features is designed to give you a different new and fun musical dimension, regardless of your instrument of choice. The SPL Virtualizer MK2-T interface has been completely redesigned in the new SPL Virtualizer MK2. I use the SPL Virtualizer MK2 with my laptop when I travel to give presentations, which is really the perfect application for the SPL Virtualizer MK2, especially for the iPad. The SPL Virtualizer MK2 is also perfect for recording, especially when you're working in the studio. The SPL Virtualizer MK2 is the ideal tool for the iPod, iPad and iPhone because it offers just enough features to work quickly and simply. The SPL Virtualizer

MK2 is currently priced at \$129 in the SPL shop and is available in both CDJ and iPad versions. Thanks for listening! Preston Jeffers (Editor) * 07/22/2013 08:23 am Chris Wray Hi Preston, I was just wondering if there was an SPL Virtualizer MK2 iPad version? I have the UMC Korg iKON controller (the 1.0 version of the Virtualizer) and use it for recording and DJing. It is a great piece of equipment, but I need something with a bit more MIDI programming control and the Virtualizer MK2 iPad doesn't have that. Please advise. Thanks, Chris 07/29/2013 01:26 pm Preston Jeffers Chris Wray, Hi Chris, Thank you for your interest in the SPL Virtualizer MK2. Unfortunately, there is not an iPad version at this time. However, we will be releasing an iPad version of the Virtualizer MK2 in the near future, we're just waiting for some of the final software and hardware revisions to be made. 07/29/2013 01:27 pm 520fdb1ae7
